CERTIFICATION OF REMUNERATION OF COUNCILLORS

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Office Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

M.M. MTHOMBENI MUNICIPAL MANAGER (Acting)

ANNUAL FINANCIAL STATEMENTS for the year ended 30 June 2016

FOREWORD

During the 2015/16 financial year the municipality committed to ensure that issues of compliance with various changes in legislation are addressed in order to meet the challenges set by a changing legislative environment.

The municipality, as part of improving service delivery to the community, implemented proper communication channels through the ward committee systems. Community Development Workers ensured that our people receive treatment that is in compliance with the Batho Pele principles. Service delivery and the payment for services still remain a major concern to all in local government. All role-players must ensure that they work together to overcome the legacy of the past and ensure that we uplift the living conditions of those that were previously disadvantaged. Further to ensure that compliance with Batho Pele principles is adhered to at all times. Our Councillors, Community Development Workers and Ward Committees are expected to discharge their responsibilities in the spirit of co-operative governance.

Capital infrastructure projects were mainly financed from external grant funding and the municipality has successfully finalised some of the projects as identified in the Integrated Development Plan. However, there has been under-spending in this regard and the municipality has already submitted a request for roll-over of unspent funds to both CoGHSTA and National Treasury.

The municipality will in the 2016/17 financial year again embark upon projects identified in the Integrated Development Plan and speed up completion of 2015/16 rolled-over projects.

I hereby wish to thank the members of the Executive Committee, management and their staff for their commitment during the 2015/16 year and hope that the 2016/17 targets set in the Integrated Development Plan will be met.

I thank you.

CLR R.A. MATSEMELA MAYOR

ANNUAL FINANCIAL STATEMENTS for the year ended 30 June 2016

STATEMENT BY THE MUNICIPAL MANAGER

Mogalakwena Municipality is a Grade 6 local Authority whose ultimate objectives are to create a climate conducive for economic growth and job creation to expand and enhance our infrastructure, and to ensure that more people of our municipality have access to basic services.

The municipality's key responsibilities include the provision of basic services such as electricity, water and sanitation, refuse removal, roads and storm water and recreational facilities to make our municipality a pleasant place to live in. While doing this it is essential that the municipality's administration is well managed. The staff members of the municipality are hardworking and accountable, and the political office bearers come on board in terms of doing proper oversight. The administration of the municipality is slowly ensuring that the councils strategic objectives are being implemented.

The municipality encountered challenges in the year under review which resulted in the revenue collection rate dropping drastically to below 50% by the close of the 2015/16 financial year. The municipality, despite all the challenges it encountered, still managed to realise a surplus. This is an assurance that the municipality will still be a going concern.

On 3 August 2016 the country, and in particular local government, held elections to elect new municipal governance structures (political office bearers). Mogalakwena's governing party did not change, though it welcomed new parties forming party of the governing council.

As mentioned above already, the municipality experienced operational challenges regarding employees going on strike. This negatively impacted on the ability of the municipality to function normally. Services were not being delivered and all internal operational processes came to a standstill. This derailed the preparation of the annual financial statements for 2015/16. The inability to compile the annual financial statements meant that the annual financial statements would be submitted late.

The labour strike destabilised the administrative function to such an extent that there were 3 municipal managers deployed or appointed to act. The following people were either deployed or appointed to act as municipal manager: Mr P. Makondo from Waterberg District, Mr M.M. Mthombeni from internal staff and Mrs M.P. Nake from Coghsta. The instability at the level of head administration being the accounting officer did not assist the municipality to operate optimally. However, the situation has normalised and the municipality is striving to take up its position as one of the best performing in the country and in particular in the province.

M.M. MTHOMBENI MUNICIPAL MANAGER (Acting)

ANNUAL FINANCIAL STATEMENTS

for the year ended 30 June 2016

REPORT OF THE CHIEF FINANCIAL OFFICER

1. INTRODUCTION

It gives me great pleasure to present the Annual Financial Statements of Mogalakwena Municipality at 30 June 2016.

These Annual Financial Statements have been prepared in accordance with Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003). The standards and pronouncements that form the GRAP Reporting Framework for the 2015/16 financial period is set out in Directive 5 issued by the ASB on 11 March 2009, as amended.

The Statement of Financial Position at 30 June 2016 indicates an increase in Net Assets, an increase in Non-current Liabilities and a decrease in Current Liabilities.

The increase in Net Assets is ascribed primarily to the increase in Accumulated Surplus as a result of the surplus generated on the operating account. The increase in Non-current Liabilities is primarily as a result of the increases in Retirement Benefit Liabilities and Long-service Benefits. The increase in Current Liabilities is primarily as a result of the increase in Payables and Unspent Conditional Grants.

2. KEY FINANCIAL INDICATORS

The following indicators are self-explanatory. The percentages of expenditure categories are well within acceptable norms and indicate good governance of the funds of the municipality.

2.1 Financial Statement Ratios:

INDICATOR	2016	2015
Surplus / (Deficit) before Appropriations	378 586 972	158 447 171
Surplus / (Deficit) at the end of the Year	2 340 343 536	1 961 756 565
Expenditure Categories as a percentage of Total Expenses:		
Employee Related Costs	24.73%	25.85%
Remuneration of Councillors	2.28%	2.32%
Collection Costs	0.16%	0.26%
Depreciation and Amortisation	9.73%	10.01%
Impairment Losses	9.19%	7.81%
Repairs and Maintenance	14.01%	11.18%
Interest Paid	0.03%	0.11%
Bulk Purchases	22.79%	22.00%
Contracted Services	3.34%	8.22%
Grants and Subsidies Paid	3.20%	2.44%
General Expenses	10.48%	9.81%
Current Ratio:		
Trade Creditors Days	127	106
Debtors from Exchange Transactions Days	127	125

2.2 Performance Indicators:

INDICATOR	2016	2015
Financial Position		
Debtors Management:		
Outstanding Debtors to Revenue	18.05%	18.26%
Outstanding Service Debtors to Revenue	39.34%	38.79%
Liquidity Management:		
Liquidity Ratio	1.42	2.04
Financial Viability:		
Debt Coverage	11.68	11.27
Cost Coverage	0.68	0.76
Financial Performance		
Expenditure Management:		
Creditors to Cash and Investments	43.11%	29.87%
Capital Expenditure on Infrastructure to Total Capital Expenditure	90.71%	90.78%

A detailed ratio analysis, together with explanantions, is included in Appendix "H".

3. OPERATING RESULTS

Details of the operating results per segmental classification of expenditure are included in Appendix "D", whilst operational results are included in Appendices "E (1), E (2) and E (3)".

The services offered by Mogalakwena Municipality can generally be classified as Rates and General, Economic and Trading Services and are discussed in more detail below.

The overall operating results for the year ended 30 June 2016 are as follows:

DETAILS	Actual 2015/16	Actual 2014/15	Percentage Variance	Budgeted 2015/16	Variance actual/ budgeted
22.7.420	R	R	%	R	%
Income:					
Opening surplus / (deficit)	185 109 049	248 721 866	(25.58)	-	100.00
Operating income for the year	1 240 950 986	928 034 527	33.72	1 174 588 214	5.65
Appropriations for the year	(344 029 598)	(223 874 255)	53.67	-	100.00
	1 082 030 437	952 882 138	13.55	1 174 588 214	(7.88)
Expenditure:					
Operating expenditure for the year	862 364 015	769 587 356	12.06	896 887 027	(3.85)
Sundry transfers	-	(1 814 267)	(100.00)	-	-
Closing surplus / (deficit)	219 666 422	185 109 049	18.67	277 701 187	(20.90)
	1 082 030 437	952 882 138	13.55	1 174 588 214	(7.88)

3.1 Rates and General Services:

Rates and General Services are all types of services rendered by the municipality, excluding those listed below. The main income sources are Assessment Rates and Sundry Fees levied.

DETAILS	Actual 2015/16 R	Actual 2014/15 R	Percentage Variance %	Budgeted 2015/16 R	Variance actual/ budgeted %
		.,	,,,		,,
Income	559 181 299	466 418 029	19.89	525 687 884	6.37
Expenditure	416 250 783	380 128 445	9.50	441 486 885	(5.72)
Surplus / (Deficit)	142 930 517	86 289 585	65.64	84 200 999	69.75
Surplus / (Deficit) as % of total income	25.56%	18.50%		16.02%	

3.2 Housing Services:

Housing Services are services rendered by the municipality to supply housing to the community and includes the rental of units owned by the municipality to public and staff. The main income source is the levying of Housing Rentals.

DETAILS	Actual 2015/16 R	Actual 2014/15 R	Percentage Variance %	Budgeted 2015/16 R	Variance actual/ budgeted %
Income	147 248	143 175	2.84	149 754	(1.67)
Expenditure	170 813	122 474	39.47	188 935	(9.59)
Surplus / (Deficit)	(23 565)	20 701	(213.83)	(39 181)	(39.86)
Surplus / (Deficit) as % of total income	(16.00)%	14.46%		(26.16)%	

3.3 Waste Management Services:

Waste Management Services are services rendered by the municipality for the collection, disposal and purifying of waste (refuse and sewerage). Income is mainly generated from the levying of fees and tariffs determined by the council.

DETAILS	Actual 2015/16 R	Actual 2014/15 R	Percentage Variance %	Budgeted 2015/16 R	Variance actual/ budgeted %
Income	55 657 996	70 916 850	(21.52)	57 653 307	(3.46)
Expenditure	56 240 787	43 383 273	29.64	72 010 775	(21.90)
Surplus / (Deficit)	(582 791)	27 533 577	(102.12)	(14 357 468)	(95.94)
Surplus / (Deficit) as % of total income	(1.05)%	38.83%		(24.90)%	

3.4 Electricity Services:

Electricity is bought in bulk from Eskom and distributed to the consumers by the municipality. The cost of bulk purchases to the municipality was R162 967 240 (2015: R139 641 530). Tariffs levied for electricity are subject to administered adjustments.

DETAILS	Actual 2015/16 R	Actual 2014/15 R	Percentage Variance %	Budgeted 2015/16 R	Variance actual/ budgeted %
Income	227 366 225	197 406 703	15.18	234 678 201	(3.12)
Expenditure	204 098 588	177 565 968	14.94	215 577 642	(5.32)
Surplus / (Deficit)	23 267 637	19 840 734	17.27	19 100 559	21.82
Surplus / (Deficit) as % of total income	10.23%	10.05%		8.14%	

3.5 Water Services:

Water is bought in bulk from Lepelle Northern Water and "Uitloop Water Beleggings" and distributed to the consumers by the municipality. The cost of bulk purchases to the municipality was R33 584 352 (2015: R29 664 079). Tariffs levied for water are subject to administered adjustments.

DETAILS	Actual 2015/16	Actual 2014/15	Percentage Variance	Budgeted 2015/16	Variance actual/ budgeted
	R	R	%	R	%
Income	398 598 218	193 149 769	106.37	356 419 068	11.83
Expenditure	185 603 045	168 387 196	10.22	167 622 790	10.73
Surplus / (Deficit)	212 995 174	24 762 573	760.15	188 796 278	12.82
Surplus / (Deficit) as % of total income	53.44%	12.82%		52.97%	

4. FINANCING OF CAPITAL EXPENDITURE

The expenditure on Assets during the year amounted to R514 354 550 (2014/15: R229 023 306). Full details of Assets are disclosed in Notes 9, 10, 11, 12 and Appendices "B, C and E (4)" to the Annual Financial Statements.

The capital expenditure of R514 354 550 was financed as follows:

DETAILS	Actual 2015/16 R	Actual 2014/15 R	Percentage Variance %	Budgeted 2015/16 R	Variance actual/ budgeted %
Capital Replacement Reserve	100 756 764	27 592 919	265.15	120 904 656	(16.66)
Grants and Subsidies	408 043 268	208 092 500	96.09	444 329 022	(8.17)

Details of the results per segmental classification of capital expenditure are included in Appendix "C" and in Appendix "E (4)".

6. ACCUMULATED SURPLUS

The balance of the Accumulated Surplus as at 30 June 2016 amounted to R2 340 343 536 (30 June 2015: R1 961 756 565) and is made up as follows:

Capital Replacement Reserve	327 793 110
Capitalisation Reserve	155 199 488
Donations and Public Contributions Reserve	1 012 505
Government Grants Reserve	1 636 672 011
Accumulated Surplus	219 666 422
	2 340 343 536

The Capital Replacement Reserve replaces the previous statutory funds, like the Capital Development Fund, and is a cash-backed reserve established to enable the municipality to finance future capital expenditure. Cash contributions, depending on the availability of cash, is made annually to the reserve.

The Capitalisation Reserve is utilised to offset the cost of depreciation of assets funded from Internal Advances (not applicable anymore) over the lifespan of such assets.

The Donations and Public Contributions Reserve is utilised to offset the cost of depreciation of assets funded from Contributions from Public over the lifespan of such assets. Amounts equal to the cost of assets acquired from Public Contributions are transferred to the reserve annually.

The Government Grants Reserves are utilised to offset the cost of depreciation of assets funded from Government Grants over the lifespan of such assets. Amounts equal to the cost of assets acquired from Government Grants are transferred to the reserve annually.

The municipality, in conjunction with its own capital requirements and external funds (external loans and grants) is able to finance its annual infrastructure capital programme.

Refer to Note 23 and the Statement of Change in Net Assets for more detail.

7. EMPLOYEE BENEFIT LIABILITIES

Emplyee Benefit Liabilities amounted R76 593 297 as at 30 June 2016 (30 June 2015: R74 745 203) and is made up as follows:

Post-retirement Health Care Benefits Liability

Long Service Awards Liability

9 248 939
76 593 297

The Post-retirement Health Care Benefits Liability is in respect of continued Health Care Benefits for employees of the municipality after retirement being members of schemes providing for such benefits. This liability is unfunded.

The Long-term Service Liability is an estimate of the long-service based on historical staff turnover. No other long-term service benefits are provided to employees. This liability is unfunded.

Refer to Note 21 for more detail.

8. NON-CURRENT PROVISIONS

Non-current Provisions amounted R11 195 858 as at 30 June 2016 (30 June 2015: R11 986 000) and is made up as follows:

These provisions are made in order to enable the municipality to be in a position to fulfill its known legal obligations when they become due and payable.

Refer to Note 22 for more detail.

9. CURRENT LIABILITIES

Current Liabilities amounted R369 439 342 as at 30 June 2016 (30 June 2015: R257 133 630) and is made up as follows:

Consumer Deposits	Note 14	20 286 493
Provisions	Note 15	4 532 007
Payables from Exchange Transactions	Note 16	226 536 378
Payables from Non-exchange Transactions	Note 17	59 116 148
Unspent Conditional Grants and Receipts	Note 18	58 968 316
		369 439 342

Current Liabilities are those liabilities of the municipality due and payable in the short-term (less than 12 months). There is no known reason as to why the municipality will not be able to meet its obligations.

Refer to the indicated Notes for more detail.

10. PROPERTY, PLANT AND EQUIPMENT

The net value of Property, Plant and Equipment was R2 064 487 323 as at 30 June 2016 (30 June 2015: R1 632 893 035).

Refer to Note 9 and Appendices "B, C and E (4)" for more detail.

11. INTANGIBLE ASSETS

The net value of Intangible Assets were R1 780 828 as at 30 June 2016 (30 June 2015: R2 227 206).

Intangible Assets are assets which cannot physically be identified and verified and are in respect of computer software obtained by the municipality in order to be able to fulfil its duties as far as service delivery is concerned.

Refer to Note 10 and Appendix "B" for more detail.

12. INVESTMENT PROPERTY

The net value of Investment Properties were R2 645 961 as at 30 June 2016 (30 June 2015: R2 733 845).

Investment Property is property held to earn rentals or for capital appreciation or both, rather than for use in the production or supply of goods or services or for administrative purposes; or sale in the ordinary course of operations.

Refer to Note 11 and Appendix "B" for more detail.

13. HERITAGE ASSETS

The net value of Heritage Assets were R5 736 342 as at 30 June 2016 (30 June 2015: R5 736 342).

Heritage Assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

Refer to Note 12 and Appendix "B" for more detail.

14. LONG-TERM RECEIVABLES

Long-term Receivables of R219 962 at 30 June 2016 (30 June 2015: R595 867) is made up as follows:

Debtors Capitalised Loans	1 719 098
Sale of Stand Loans	762 078
Study Cost Loans	43 380
	2 524 556
Sale of Stand Loans	2 304 594
	219 962

The decrease in the amount for Long-term Receivables is due to the increased amount in the short-term portion due to agreements expiring in the year 2014/15.

Refer to Note 13 for more detail.

15. CURRENT ASSETS

Current Assets amounted R722 701 618 as at 30 June 2016 (30 June 2015: R661 435 103) and is made up as follows:

Inventories	Note 2	9 166 275
Receivables from Exchange Transactions	Note 3	103 103 792
Receivables from Non-exchange Transactions	Note 4	39 805 132
VAT Receivable	Note 5	42 788 643
Cash and Cash Equivalents	Note 6	525 442 644
Operating Lease Assets	Note 7	90 538
Current Portion of Long-term Debtors	Note 13	2 304 594
		722 701 618

The increase in the amount for Current Assets is mainly due to the increased amount for Cash and Cash Equivalents due to the non-payment of Payables.

Refer to the indicated Notes for more detail.

16. INTER-GOVERNMENTAL GRANTS

The municipality is dependent on financial aid from other government spheres to finance its annual capital programme. Operating grants are utilised to finance indigent assistance and provision of free basic services.

Refer to Notes 18 and 28, and Appendix "F" for more detail.

17. EVENTS AFTER THE REPORTING DATE

Full details of all known events, if any, after the reporting date are disclosed in Note 62.

18. EXPRESSION OF APPRECIATION

We are grateful to the Mayor, members of the Executive Committee, Councillors, the Municipal Manager and Heads of Departments for the support extended during the financial year. A special word of thanks to all staff in the Finance Department, for without their assistance these Annual Financial Statements would not have been possible.

S. MULENGA
CHIEF FINANCIAL OFFICER (Acting)

Financial Position: Explanation of Variances between Approved Budget and Actual

Reasons for Variances greater than 10% between Approved Budget and Actual Amount on the various items disclosed in the Statement of Financial Position are explained below:

Receivables from Exchange Transactions:

Increase in Provision for Bad Debts, due to decline in recovery of Debtors, not budgeted for and restatement done in terms of GRAP 23.

Receivables from Non-exchange Transactions:

It has been under-budgeted for Assesment Rates Receivables.

VAT Receivable:

NT Budget Template not aligned to GRAP and does not provide for VAT Receivable.

Cash and Cash Equivalents:

Capital expenditure budgeted for, not realised.

Operating Lease Reveivables:

NT Budget Template not aligned to GRAP and does not provide for Operating Lease Receivables.

Current Portion of Long-term Receivables:

It has been over-budgeted for Arrangement Debtors.

Intangible Assets:

Capital expenditure budgeted for, not realised.

Heritage Assets:

NT Budget Template not aligned to GRAP and does not provide for Heritage Assets.

Long-term Receivables:

It was over-budgeted for Arrangement Debtors.

Provisions:

It was under-budgeted for Performance Bonuses, Post Retirement Medical Aid Benefit Liability and Long-term Service Liability.

Payables from Exchange Transactions:

It was over-budgeted for Payables from Exchange Transactions.

Payables from Non-exchange Transactions:

NT Budget Template not aligned to GRAP and does not provide for Payables from Non-exchange Transactions - included in budget for Payables from Exchange Transactions.

Unspent Conditional Grants and Receipts:

It was budgeted for Conditional Grants and Receipts to be fully spent at year-end.

Non-current Provisions:

It was under-budgeted for Provision for Rehabiliation of Landfill Sites, which were restated during the current financial year.

Financial Performance: Explanation of Variances between Approved Budget and Actual

Reasons for Variances greater than 10% between Approved Budget and Actual Amount on the various items disclosed in the Statement of Financial Performance are explained below:

Fines:

It was under-budgeted for Fines.

Government Grants and Subsidies Received:

Capital Transfers below are included in the budget for Government Grants and Subsidies Received.

Rental of Facilities and Equipment:

It was over-budgeted for Rental of Facilities and Equipment - negligible amount.

Interest Earned - External Investments:

Interest Earned exceeded the budgetary expections due to funds not spent, and creditors not paid and increase in interest rate.

Interest Earned - Outstanding Debtors:

It was budgeted only for the portion of interest expected to be paid by debtors.

Other Income:

Other Income received was less than budgetary expectations.

Employee Related Costs:

Several vacant positions were not filled during 2015/16.

Impairment Losses:

It was under-budgeted for Impairment Losses on Receivables.

Finance Costs:

It was not budgeted for Interest and Penalties on late payments made.

Grants and Subsidies Paid:

Over budgeted for Free Basic Services - expense debited to Revenue Foregone.

General Expenses:

It was overbudgeted for General Expenses.

Loss on Disposal of Property, Plant and Equipment:

It was not budgeted for Loss on Disposal of Property, Plant and Equipment.

Transfers Recognised - Capital:

Capital Transfers are included in the budget for Government Grants and Subsidies Received above.

Additional funds were received after the finalisation of the Adjustment Budget, late February to June 2016, which resulted in the major portion of the virements recorded in the table above.

Cash Flow: Explanation of Variances between Approved Budget and Actual

Reasons for Variances greater than 10% between Approved Budget and Actual Amount on the various items disclosed in the Cash Flow Statement are explained below:

Property Rates

Overbudget for Property Rates, due to poor collection rate.

Grants

Projects from 2014/15 roll-overs included.

Public Contributions and Donations

Budget not aligned to GRAP requirements - Public Donations included in Grants above.

Service Charges

Overbudget for Service Charges, due to poor collection rate.

Interest Received

Interest Earned exceeded the budgetary expections due to unspent grants invested and interest on outstanding debt under-budgeted for.

Other Receipts

Not all Other Receipts were taken into consideration in the budgeted amount.

Employee Related Costs

NT Budget Template not aligned to GRAP requirements - Employee Costs included in Suppliers Paid below.

Remuneration of Councillors

NT Budget Template not aligned to GRAP requirements - Councillor Remuneration included in Suppliers Paid below.

Interest Paid

It was not budgeted for Interest and Penalties on late payments made.

Suppliers Paid

NT Budget Template not aligned to GRAP requirements - Employee Costs and Councillor Remuneration above included in Suppliers Paid.

Other Payments

It was not budgeted for the effect of changes in outstanding payables.

Purchase of Property, Plant and Equipment:

Purchase of Property, Plant and Equipment from roll overs from 2014/15 increased the actual outcome.

Profit on Sale of Land:

Land sales exceeded budgetary expectations.

Decrease / (Increase) in Long-term Receivables:

It was not budgeted for the change in Long-term Receivables.

Cash and Cash Equivalents at End of the Year:

All above-mentioned items are reflecting in Cash and Cash Equivalents at End of the Year.

Financial Position: Explanation of Variances between Approved Budget and Actual

Reasons for Variances greater than 10% between Approved Budget and Actual Amount on the various items disclosed in the Statement of Financial Position are explained below:

Inventories:

It has been over-budgeted for Inventories.

Receivables from Exchange Transactions:

Increase in Provision for Bad Debts, due to decline in recovery of Debtors, not budgeted for.

Receivables from Non-exchange Transactions:

It has been under-budgeted for Assesment Rates Receivables.

VAT Receivable:

NT Budget Template not aligned to GRAP and does not provide for VAT Receivable.

Cash and Cash Equivalents:

Capital expenditure budgeted for, not realised.

Operating Lease Reveivables:

NT Budget Template not aligned to GRAP and does not provide for Operating Lease Receivables.

Current Portion of Long-term Receivables:

It has been over-budgeted for Arrangement Debtors.

Property, Plant and Equipment:

Capital expenditure budgeted for, not realised.

Intangible Assets:

It was under-budgeted for Intangible Assets.

Heritage Assets:

NT Budget Template not aligned to GRAP and does not provide for Heritage Assets.

Long-term Receivables:

It was over-budgeted for Arrangement Debtors.

Provisions:

It was under-budgeted for Performance Bonuses, which were reversed in the prior financial year and provided for again in the current financial year.

Payables from Non-exchange Transactions:

NT Budget Template not aligned to GRAP and does not provide for Payables from Non-exchange Transactions - included in budget for Payables from Exchange Transactions.

Unspent Conditional Grants and Receipts:

It was budgeted for Conditional Grants and Receipts to be fully spent at year-end.

Non-current Provisions:

It was under-budgeted for Provision for Rehabiliation of Landfill Sites, which were restated during the current financial year.

Accumulated Surplus / (Deficit):

It was over-budgeted for Accumulated Surplus.

30 June 2015

Financial Performance: Explanation of Variances between Approved Budget and Actual

Reasons for Variances greater than 10% between Approved Budget and Actual Amount on the various items disclosed in the Statement of Financial Performance are explained below:

Fines:

It was under-budgeted for Fines.

Licences and Permits:

It was over-budgeted for Licences and Permits - negligible amount.

Government Grants and Subsidies Received:

Capital Transfers below are included in the budget for Government Grants and Subsidies Received.

Public Contributions and Donations:

It was over-budgeted for Public Contributions and Donations.

Rental of Facilities and Equipment:

It was over-budgeted for Rental of Facilities and Equipment - negligible amount.

Interest Earned - External Investments:

Interest Earned exceeded the budgetary expections due to funds not spent, and creditors not paid.

Interest Earned - Outstanding Debtors:

It was budgeted only for the portion of interest expected to be paid by debtors.

Other Income:

income.

Profit on Sale of Land:

Land sales exceeded budgetary expectations.

Impairment Losses:

It was under-budgeted for Impairment Losses on Receivables.

Other Income received was less than budgetary expectations.

Finance Costs:

It was not budgeted for Interest and Penalties on late payments made.

Grants and Subsidies Paid:

Over budgeted for Indigent Subsidies paid.

General Expenses:

It was overbudgeted for General Expenses.

Transfers Recognised - Capital:

Capital Transfers are included in the budget for Government Grants and Subsidies Received above.

Capital Expendirure per Function: Explanation of Variances between Approved Budget and Actual

Reasons for Variances greater than 10% between Approved Budget and Actual Amount on the various items for Capital Expenditure per Function are explained below:

Executive and Council:

Savings realised on capital items budgeted for and not procured.

Budget and Treasury Office:

Savings realised on capital items budgeted for and not procured.

Corporate Services:

Savings realised on capital items budgeted for and not procured.

Community and Social Services:

Savings realised on capital items budgeted for and not procured.

Sport and Recreation

Projects not finalised - Budget rolled over to 2015/16 for completion in the next financial year.

Public Safety:

Savings realised on capital items budgeted for and not procured.

Planning and Development:

Negligent amount.

Roads and Transport:

Projects not finalised - Budget rolled over to 2015/16 for completion in the next financial year.

Electricity:

Projects not finalised - Budget rolled over to 2015/16 for completion in the next financial year.

Water:

Projects not finalised - Budget rolled over to 2015/16 for completion in the next financial year.

Waste Management:

Projects not finalised - Budget rolled over to 2014/15 for completion in the next financial year.

Cash Flow: Explanation of Variances between Approved Budget and Actual

Reasons for Variances greater than 10% between Approved Budget and Actual Amount on the various items disclosed in the Cash Flow Statement are explained below:

Property Rates

Service Charges below included in budget for Property Rates.

Grants

Projects budgeted to be funded from Grants, did not realise.

Public Contributions and Donations

Budget not aligned to GRAP requirements - Public Donations included in Grants above.

Service Charges

Budget for Service Charges included in Property Rates above.

Interest Received

Interest Earned exceeded the budgetary expections due to unspent grants invested and interest on outstanding debt under-budgeted for.

Other Receipts

It was not budgeted for Other Receipts.

Employee Related Costs

NT Budget Template not aligned to GRAP requirements - Employee Costs included in Suppliers Paid below.

Remuneration of Councillors

NT Budget Template not aligned to GRAP requirements - Councillor Remuneration included in Suppliers Paid below.

Interest Paid

It was not budgeted for Interest and Penalties on late payments made.

Suppliers Paid

NT Budget Template not aligned to GRAP requirements - Employee Costs and Councillor Remuneration above included in Suppliers Paid.

Other Payments

It was not budgeted for the effect of changes in outstanding payables.

Purchase of Property, Plant and Equipment:

It was not budgeted for Purchase of Property, Plant and Equipment.

Purchase of Intangible Assets:

Nt Budget Template not aligned to GRAP requirements - Purchase of Intangible Assets included in Purchase of Property, Plant and Equipment above.

Profit on Sale of Land:

Land sales exceeded budgetary expectations.

Decrease / (Increase) in Long-term Receivables:

It was not budgeted for the change in Long-term Receivables.

Cash and Cash Equivalents at End of the Year:

The effect of not budgeting for Purchase of Property, Plant and Equipment is reflecting in Cash and Cash Equivalents at End of the Year.

RECONCILIATION OF BUDGET SURPLUS/(DEFICIT) WITH THE SURPLUS/(DEFICIT) IN THE STATEMENT OF FINANCIAL PERFORMANCE:

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

1. BASIS OF PRESENTATION

The Annual Financial Statements have been prepared on an Accrual Basis of accounting and are in accordance with the historical cost convention, except where indicated otherwise.

The Annual Financial Statements have been prepared in accordance with the effective Standards of Generally Recognised Accounting Practices (GRAP), as approved by the Minister of Finance, including any interpretations, guidelines and directives issued by the Accounting Standards Board and the Municipal Finance Management Act, 2003 (Act No. 56 of 2003).

1.1 Changes in Accounting Policy and Comparability

Accounting Policies have been consistently applied, except where otherwise indicated below.

For the years ended 30 June 2015 and 30 June 2016 the municipality has adopted the accounting framework as set out in paragraph 1 above. The details of any resulting changes in Accounting Policy and comparative restatements are set out below and in the relevant Notes to the Annual Financial Statements.

The municipality changes an Accounting Policy only if the change:

- (a) Is required by a Standard of GRAP; or
- (b) Results in the Annual Financial Statements providing reliable and more relevant information about the effects of transactions, other events or conditions on the municipality's financial position, financial performance or cash flow.

1.2 Critical Judgements, Estimations and Assumptions

In the application of the municipality's Accounting Policies, which are described below, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the critical judgements and estimations that management have made in the process of applying the municipality's Accounting Policies and that have the most significant effect on the amounts recognised in Annual Financial Statements:

1.2.1 Revenue Recognition

Accounting Policy 10.2 on Revenue from Exchange Transactions and Accounting Policy 10.3 on Revenue from Non-exchange Transactions describes the conditions under which revenue will be recorded by the management of the municipality.

In making their judgement, the management considered the detailed criteria for the recognition of revenue as set out in GRAP 9 (*Revenue from Exchange Transactions*) and GRAP 23 (*Revenue from Non-exchange Transactions*). As far as Revenue from Non-exchange Transactions is concerned (see Basis of Preparation above), and, in particular, whether the municipality, when goods are sold, had transferred to the buyer the significant risks and rewards of ownership of the goods and when services is rendered, whether the service has been rendered. Also of importance is the estimation process involved in initially measuring revenue at the fair value thereof. Management of the municipality is satisfied that recognition of the revenue in the current year is appropriate.

1.2.2 Financial Assets and Liabilities

The classification of Financial Assets and Liabilities, into categories, is based on judgement by management. Accounting Policy 8.1 on Financial Assets Classification and Accounting Policy 8.2 on Financial Liabilities Classification describe the factors and criteria considered by the management of the municipality in the classification of Financial Assets and Liabilities.

In making the above-mentioned judgement, management considered the definition and recognition criteria for the classification of Financial Instruments as set out in GRAP 104 (*Financial Instruments*).

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

1.2.3 Impairment of Financial Assets

Accounting Policy 8.4 on Impairment of Financial Assets describes the process followed to determine the value at which Financial Assets should be impaired. In making the estimation of the impairment, the management of the municipality considered the detailed criteria of impairment of Financial Assets as set out in GRAP 104 (Financial Instruments) and used its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of the reporting period. The management of the municipality is satisfied that impairment of Financial Assets recorded during the year is appropriate.

Impairment of Trade Receivables:

The calculation in respect of the impairment of Debtors is based on an assessment of the extent to which Debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This is performed per service-identifiable categories across all classes of debtors.

The total increase in estimation of the impairment of Receivables from Exchange Transactions, Receivables from Non-exchange Transactions and that of Long-term Receivables are disclosed in Notes 3, 4 and 13 to the Annual Financial Statements.

1.2.4 Useful lives of Property, Plant and Equipment, Intangible Assets and Investment Property

As described in Accounting Policies 3.3, 4.2 and 5.2, the municipality depreciates its Property, Plant & Equipment and Investment Property, and amortises its Intangible Assets, over the estimated useful lives of the assets, taking into account the residual values of the assets at the end of their useful lives, which is determined when the assets are available for use.

The useful lives of assets are based on management's estimation. Management considered the impact of technology, availability of capital funding, service requirements and required return on assets in order to determine the optimum useful life expectation, where appropriate.

The estimation of residual values of assets is based on management's judgement as to whether the assets will be sold or used to the end of their useful lives, and in what condition they will be at that time.

1.2.5 Impairment: Write-down of Property, Plant & Equipment, Intangible Assets, Investment Property, Heritage Assets and Inventories

Accounting Policy 7 on Impairment of Assets, Accounting Policy 4.2 on Intangible Assets – Subsequent Measurement, Amortisation and Impairment and Accounting Policy 9.2 on Inventory – Subsequent Measurement describe the conditions under which non-financial assets are tested for potential impairment losses by the management of the municipality. Significant estimates and judgements are made relating to impairment testing of Property, Plant and Equipment, impairment testing of Intangible Assets and write-down of Inventories to the lowest of Cost and Net Realisable Value.

In making the above-mentioned estimates and judgement, management considered the subsequent measurement criteria and indicators of potential impairment losses as set out in GRAP 21 (Impairment of Non-cash Generating Assets) and GRAP 26 (Impairment of Cash Generating Assets). In particular, the calculation of the recoverable service amount for PPE and Intangible Assets and the Net Realisable Value for Inventories involves significant judgment by management.

Estimated impairments during the year to Property, Plant and Equipment, Intangible Assets, Investment Property, Heritage Assets and Inventory are disclosed in Notes 2, 9, 10, 11 and 12 to the Annual Financial Statements, if applicable.

1.2.6 Water Inventory

The estimation of the Water Inventory in reservoirs is based on the measurement of water via electronic level sensors, which determines the depth of water in the reservoirs, which is then converted into volumes based on the total capacity of the reservoir. Furthermore, the length and width of all pipes are also taken into account in determining the volume of water on hand at year-end. Refer to Accounting Policy 9.2.2.

1.2.7 Defined Benefit Plan Liabilities

As described in Accounting Policy 12.2, Employee Benefits – Post-employment Benefits, the municipality obtains actuarial valuations of its Defined Benefit Plan Liabilities. The defined benefit obligations of the municipality that were identified are Post-retirement Health Benefit Obligations and Long-service Awards. The estimated liabilities are recorded in accordance with the requirements of GRAP 25. Details of the liabilities and the key assumptions made by the actuaries in estimating the liabilities are provided in the relevant Notes to the Annual Financial Statements.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

1.2.8 Provisions and Contingent Liabilities

Management judgement is required when recognising and measuring Provisions and when measuring Contingent Liabilities. Provisions are discounted where the effect of discounting is material using actuarial valuations.

1.2.9 Budget Information

Deviations between budget and actual amounts are regarded as material differences when a 10% deviation exists. All material differences are explained in the relevant Notes to the Annual Financial Statements.

1.3 Presentation Currency

The Annual Financial Statements are presented in South African Rand, rounded off to the nearest Rand which is the municipality's functional currency.

1.4 Going Concern Assumption

The Annual Financial Statements have been prepared on a Going Concern Basis.

1.5 Offsetting

Assets, Liabilities, Revenues and Expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

1.6 Standards, Amendments to Standards and Interpretations issued but not yet Effective

The following GRAP Standards have been issued but are not yet effective and have not been early adopted by the municipality:

 GRAP 18 	Segment Reporting - issued February 2011
 GRAP 20 	Related Party Disclosures (Revised)
 GRAP 32 	Service Concession Arrangement Grantor - issued August 2013
 GRAP 108 	Statutory Receivables - issued September 2013
• IGRAP 17	Service Concession Arrangements where a Grantor controls a significant Residual Interest in an Asset

The ASB Directive 5, paragraph 29, sets out the principles for the application of the GRAP 3 guidelines in the determination of the GRAP Reporting Framework hierarchy as set out in the standard of GRAP 3 on *Accounting Policies, Changes in Accounting Estimates and Errors*.

Where a standard of GRAP is approved as effective, it replaces the equivalent statement of International Public Sector Accounting Standards Board, International Financial Reporting Standards or Generally Accepted Accounting Principles. Where a standard of GRAP has been issued but is not yet in effect, the municipality may select to apply the principles established in that standard in developing an appropriate Accounting Policy dealing with a particular section or event before applying paragraph 12 of the Standard of GRAP on Accounting Policies, Changes in Accounting Estimates and Errors.

The municipality applied the principles established in the following Standards of GRAP that have been issued but are not yet effective, in developing appropriate Accounting Policies dealing with the following transactions, but have not early adopted these Standards:

GRAP 20 Related Party Disclosures (Revised)

Management has considered all of the above-mentioned GRAP Standards issued but not yet effective and anticipates that the adoption of these standards will not have a significant impact on the financial position, financial performance or cash flows of the municipality.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

2. NET ASSETS

Included in the Net Assets of the municipality are the following Reserves that are maintained in terms of specific requirements:

2.1 Accumulated Surplus

Included in the Accumulated Surplus of the municipality are the following Reserves that are maintained in terms of specific requirements:

2.1.1 Capital Replacement Reserve (CRR)

In order to finance the provision of Infrastructure and other items of Property, Plant and Equipment from internal sources, amounts are transferred from the Accumulated Surplus/(Deficit) to the CRR in terms of delegated powers.

The following provisions are set for the creation and utilisation of the CRR:

- The cash funds that back up the CRR are invested until utilised. The cash may only be invested in accordance with the Investment Policy of the municipality.
- The CRR may only be utilised for the purpose of purchasing items of Property, Plant and Equipment and may not be used for the maintenance of these items.
- Whenever an asset is purchased out of the CRR, an amount equal to the cost price of the asset is transferred from the CRR and the Accumulated Surplus/(Deficit) is credited by a corresponding amount.
- If a profit is made on the sale of assets other than land, the profit on these assets is reflected in the Statement of Financial Performance and is then transferred, via the Statement of Changes in Net Assets, to the CRR, provided that it is cash backed. Profit on the sale of land is not transferred to the CRR as it is regarded as revenue.

2.1.2 Capitalisation Reserve

On the implementation of GRAP, the balance on certain funds, created in terms of the various Provincial Ordinances applicable at the time, that had historically been utilised for the acquisition of items of Property, Plant and Equipment were transferred to a Capitalisation Reserve rather than the Accumulated Surplus/(Deficit) in terms of a directive (Circular No 18) issued by National Treasury. The purpose of this Reserve is to promote consumer equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of these items of Property, Plant and Equipment are offset by transfers from this Reserve to the Accumulated Surplus/(Deficit).

The balance on the Capitalisation Reserve equals the carrying value of the items of Property, Plant and Equipment financed from the former legislated funds. When items of Property, Plant and Equipment are depreciated, a transfer is made from the Capitalisation Reserve to the Accumulated Surplus/(Deficit).

When an item of Property, Plant and Equipment is disposed, the balance in the Capitalisation Reserve relating to such item is transferred to the Accumulated Surplus/(Deficit).

2.1.3 Donations and Public Contributions Reserve

When items of Property, Plant and Equipment are financed from public contributions and donations, a transfer is made from the Accumulated Surplus/(Deficit) to the Donations and Public Contributions Reserve equal to the donations and public contributions recorded as revenue in the Statement of Financial Performance in accordance with a directive (Circular No 18) issued by National Treasury. When such items of Property, Plant and Equipment are depreciated, a transfer is made from the Donations and Public Contributions Reserve to the Accumulated Surplus/(Deficit). The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the estimated useful life of the item of Property, Plant and Equipment financed from donations and public contributions.

When an item of Property, Plant and Equipment financed from donations and public contributions is disposed, the balance in the Donations and Public Contributions Reserve relating to such item is transferred to the Accumulated Surplus/(Deficit).

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

2.1.4 Government Grants Reserve

When items of Property, Plant and Equipment are financed from government grants, a transfer is made from the Accumulated Surplus/(Deficit) to the Government Grants Reserve equal to the government grants recorded as revenue in the Statement of Financial Performance in accordance with a directive (Circular No 18) issued by National Treasury. When such items of Property, Plant and Equipment are depreciated, a transfer is made from the Government Grants Reserve to the Accumulated Surplus/(Deficit). The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the estimated useful life of the item of Property, Plant and Equipment financed from government grants.

When an item of Property, Plant and Equipment financed from government grants is disposed, the balance in the Government Grants Reserve relating to such item is transferred to the Accumulated Surplus/(Deficit).

3. PROPERTY, PLANT AND EQUIPMENT

3.1 Initial Recognition

Property, Plant and Equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year.

The cost of an item of Property, Plant and Equipment is recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to the municipality, and if the cost or fair value of the item can be measured reliably.

Property, Plant and Equipment are initially recognised at cost on its acquisition date or in the case of assets acquired by grants or donations, deemed cost, being the fair value of the asset on initial recognition. The cost of an item of Property, Plant and Equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of Property, Plant and Equipment have different useful lives, they are accounted for as separate items (major components) of Property, Plant and Equipment.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

The cost of an item of Property, Plant and Equipment acquired in exchange for non-monetary assets or monetary assets, or a combination of monetary and non-monetary assets is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up.

Major spare parts and servicing equipment qualify as Property, Plant and Equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of Property, Plant and Equipment, they are accounted for as Property, Plant and Equipment.

3.2 Subsequent Measurement

Subsequent expenditure relating to Property, Plant and Equipment is capitalised if it is probable that future economic benefits or potential service delivery associated with the subsequent expenditure will flow to the municipality and the cost or fair value of the subsequent expenditure can be reliably measured. Subsequent expenditure incurred on an asset is only capitalised when it increases the capacity or future economic benefits associated with the asset. Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Subsequently all Property Plant and Equipment are measured at cost, less accumulated depreciation and accumulated impairment losses.

Compensation from third parties for items of Property, Plant and Equipment that were impaired, lost or given up is included in the Statement of Financial Performance when the compensation becomes receivable.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

3.3 Depreciation

Depreciation on assets other than land is calculated on cost, using the *Straight-line Method*, to allocate their cost or revalued amounts to their residual values over the estimated useful lives of the assets. The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the municipality. Each part of an item of Property, Plant and Equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

Depreciation only commences when the asset is available for use, unless stated otherwise. The depreciation rates are based on the following estimated useful lives:

Asset Class	Years	Asset Class	Years
Buildings		Community	
Improvements	5 - 50	Community Facilities	5 - 50
		Recreational Facilities	10 - 40
Infrastructure			
Electricity	10 - 50	Other	
Railways	30	Computer Equipment	5 - 10
Roads and Paving	5 - 80	Emergency Equipment	5 - 10
Sanitation	10 - 55	Furniture and Fittings	5 - 15
Sewerage / Solid Waste	5 - 80	Motor Vehicles	7 - 10
Water	5 - 80	Office Equipment	5 - 15
		Plant and Equipment	2 - 15
		Specialist Vehicles	10 - 15
		Other Assets	5 - 15

The assets' residual values, estimated useful lives and depreciation method are reviewed annually and adjusted prospectively, if appropriate, at each reporting date. Reviewing the useful life of an asset on an annual basis does not require the municipality to amend the previous estimate unless expectations differ from the previous estimate.

3.4 Land

Land is stated at historical cost and is not depreciated as it is deemed to have an indefinite useful life.

3.5 Infrastructure Assets

Infrastructure Assets are any assets that are part of a network of similar assets. Infrastructure Assets are shown at cost less accumulated depreciation and accumulated impairment. Infrastructure Assets are treated similarly to all other assets of the municipality in terms of the Asset Management Policy.

3.6 Incomplete Construction Work

Incomplete Construction Work is stated at historical cost. Depreciation only commences when the asset is available for use.

3.7 Derecognition

The carrying amount of an item of Property, Plant and Equipment is derecognised on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of an item of Property, Plant and Equipment is included in surplus or deficit when the item is derecognised. Gains are not classified as revenue.

Gains or losses are calculated as the difference between the carrying value of assets (cost less accumulated depreciation and accumulated impairment losses) and the proceeds from disposals are included in the Statement of Financial Performance as a gain or loss on disposal of Property, Plant and Equipment.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

4. INTANGIBLE ASSETS

4.1 Initial Recognition

Identifiable non-monetary assets without physical substance are classified and recognised as Intangible Assets. The municipality recognises an Intangible Asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Internally generated Intangible Assets are subject to strict recognition criteria before they are capitalised. Research expenditure is recognised as an expense as it is incurred. Costs incurred on development projects (relating to the design and testing of new or improved products) are recognised as Intangible Assets when the following criteria are fulfilled:

- (a) It is technically feasible to complete the Intangible Asset so that it will be available for use;
- (b) Management intends to complete the Intangible Asset and use or sell it;
- (c) There is an ability to use or sell the Intangible Asset;
- (d) It can be demonstrated how the Intangible Asset will generate probable future economic benefits;
- (e) Adequate technical, financial and other resources to complete the development and to use or sell the Intangible Asset are available; and
- (f) The expenditure attributable to the Intangible Asset during its development can be reliably measured.

Other development expenditures that do not meet these criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Capitalised development costs are recorded as Intangible Assets and amortised from the point at which the asset is available for use. Development assets are tested for impairment annually, in accordance with GRAP 21 or GRAP 26.

Intangible Assets are initially recognised at cost. The cost of an Intangible Asset is the purchase price and other costs attributable to bring the Intangible Asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality, or where an Intangible Asset is acquired at no cost, or for a nominal cost, the cost shall be its fair value as at the date of acquisition. Trade discounts and rebates are deducted in arriving at the cost.

The cost of an Intangible Asset acquired in exchange for non-monetary assets or monetary assets, or a combination of monetary and non-monetary assets, is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up. If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

4.2 Subsequent Measurement, Amortisation and Impairment

After initial recognition, Intangible Assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Expenditure on an intangible item that was initially recognised as an expense shall not be recognised as part of the cost of an Intangible Asset at a later date.

In terms of GRAP 31, Intangible Assets are distinguished between internally generated Intangible Assets and other Intangible Assets. It is further distinguished between indefinite or finite useful lives. Amortisation is charged on a *Straight-line Basis* over the Intangible Assets' useful lives. The residual value of Intangible Assets with finite useful lives is zero, unless an active market exists. Where Intangible Assets are deemed to have indefinite useful lives, such Intangible Assets are not amortised. However, such Intangible Assets are subject to an annual impairment test.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

Amortisation only commences when the asset is available for use, unless stated otherwise. The amortisation rates are based on the following estimated useful lives:

Asset Class		Years	Asset Class	Years
	Computer Software	5		

Intangible Assets are annually tested for impairment as described in Accounting Policy 7 on Impairment of Assets, including Intangible Assets not yet available for use. Where items of Intangible Assets have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified. The impairment loss is the difference between the carrying amount and the recoverable service amount.

The estimated useful life, residual values and amortisation method are reviewed annually at the end of the financial year. Any adjustments arising from the annual review are applied prospectively as a Change in Accounting Estimate in the Statement of Financial Performance.

4.3 Derecognition

Intangible Assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an Intangible Asset is determined as the difference between the proceeds of disposal and the carrying value and is recognised in the Statement of Financial Performance.

5. INVESTMENT PROPERTY

5.1 Initial Recognition

Investment Property includes property (land or a building, or part of a building, or both land and buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations.

At initial recognition, the municipality measures Investment Property at cost including transaction costs once it meets the definition of Investment Property. However, where an Investment Property was acquired through a non-exchange transaction (i.e. where it acquired the Investment Property for no or a nominal value), its cost is its fair value as at the date of acquisition.

The cost of self-constructed Investment Property is the cost at date of completion.

Based on management's judgement, the following criteria have been applied to distinguish Investment Properties from owner occupied property or property held for resale:

- (a) Land held for long-term capital appreciation rather than for short-term sale in the ordinary course of operations;
- (b) Land held for a currently undetermined future use (If the municipality has not determined that it will use the land as owner-occupied property or for short-term sale in the ordinary course of operations, the land is regarded as held for capital appreciation);
- (c) A building owned by the municipality (or held by the municipality under a finance lease) and leased out under one or more operating leases on a commercial basis (this will include the property portfolio rented out on a commercial basis on behalf of the municipality);
- (d) A property owned by the municipality and leased out at a below market rental; and
- (e) Property that is being constructed or developed for future use as investment property.

The rent earned does not have to be at a commercial basis or market related for the property to be classified as investment property.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

The following assets do not fall in the ambit of Investment Property and shall be classified as Property, Plant and Equipment, Inventory or Non-current Assets Held-for-Sale, as appropriate:

- (a) Property held for sale in the ordinary course of operations or in the process of construction or development for such sale;
- (b) Property being constructed or developed on behalf of third parties;
- (c) Owner-occupied property, including (among other things) property held for future use as owner-occupied property, property held for future development and subsequent use as owner-occupied property, property occupied by employees such as housing for personnel (whether or not the employees pay rent at market rates) and owner-occupied property awaiting disposal;
- (d) Property that is leased to another entity under a finance lease;
- (e) Property held to provide goods and services and also generates cash inflows; and
- (f) Property held for strategic purposes which would be accounted for in accordance with the Standard of GRAP on Property, Plant and Equipment.

5.2 Subsequent Measurement

Investment Property is measured using the *Cost Model* and is stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation is calculated on cost, using the *Straight-line Method* over the useful life of the property, which is estimated at 5 - 30 years. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately.

The gain or loss arising on the disposal of an Investment Property is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

5.3 Derecognition

An Investment Property shall be derecognised (eliminated from the Statement of Financial Position) on disposal or when the Investment Property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

6. HERITAGE ASSETS

A Heritage Asset is defined as an asset that has a cultural, environmental, historical, natural, scientific, technological or artistic significance, and is held and preserved indefinitely for the benefit of present and future generations.

Heritage Assets are not depreciated owing to uncertainty regarding to their estimated useful lives. The municipality assess at each reporting date if there is an indication of impairment.

6.1 Initial Recognition

The cost of an item of Heritage Assets is recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to the municipality, and if the cost or fair value of the item can be measured reliably.

Heritage Assets are initially recognised at cost on its acquisition date or in the case of assets acquired by grant or donation, deemed cost, being the fair value of the asset on initial recognition. The cost of an item of Heritage Assets is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

The cost of an item of Heritage Assets acquired in exchange for a non-monetary asset or monetary asset, or a combination of monetary and non-monetary assets, is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

6.2 Subsequent Measurement

Subsequent expenditure relating to Heritage Assets is capitalised if it is probable that future economic benefits or potential service delivery associated with the subsequent expenditure will flow to the municipality and the cost or fair value of the subsequent expenditure can be reliably measured. Subsequent expenditure incurred on an asset is only capitalised when it increases the capacity or future economic benefits associated with the asset. Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Subsequently all Heritage Assets are measured at cost, less accumulated impairment losses.

6.3 Derecognition

The carrying amount of an item of Heritage Assets is derecognised on disposal, or when no future economic benefits or service potential are expected from its use or disposal. The gain or loss arising from the derecognition of an item of Heritage Assets is included in surplus or deficit when the item is derecognised. Gains are not classified as revenue. Gains or losses are calculated as the difference between the carrying value of assets (cost less accumulated impairment losses) and the disposal proceeds is included in the Statement of Financial Performance as a gain or loss on disposal of Heritage Assets.

7. IMPAIRMENT OF ASSETS

The municipality classifies all assets held with the primary objective of generating a commercial return as *Cash Generating Assets*. All other assets are classified as *Non-cash Generating Assets*.

7.1 Impairment of Cash Generating Assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash generating unit to which the asset belongs is determined.

The recoverable amount of an asset or a cash generating unit is the higher of its fair value less costs to sell and its value in use. The best evidence of fair value less cost to sell is the price in a binding sale agreement in an arm's length transaction, adjusted for the incremental cost that would be directly attributable to the disposal of the asset.

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

An impairment loss is recognised for cash generating units if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit pro rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

7.2 Impairment of Non-cash Generating Assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired.

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the non-cash generating unit to which the asset belongs is determined.

The recoverable service amount of a non-cash generating asset is the higher of its fair value less costs to sell and its value in use. The value in use for a non-cash generating asset is the present value of the asset's remaining service potential.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

An impairment loss is recognised for non-cash generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit pro rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

8. FINANCIAL INSTRUMENTS

The municipality has various types of Financial Instruments and these can be broadly categorised as *Financial Assets*, *Financial Liabilities* or *Residual Interests* in accordance with the substance of the contractual agreement. The municipality only recognises a Financial Instrument when it becomes a party to the contractual provisions of the instrument.

Initial Recognition

Financial Assets and Financial Liabilities are recognised on the municipality's Statement of Financial Position when it becomes party to the contractual provisions of the instrument.

The municipality does not offset a Financial Asset and a Financial Liability unless a legally enforceable right to set off the recognised amounts currently exist and the municipality intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Fair Value Methods and Assumptions

The fair values of Financial Instruments are determined as follows:

- The fair values of quoted investments are based on current bid prices.
- If the market for a Financial Asset is not active (and for unlisted securities), the municipality establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models making maximum use of market inputs and relying as little as possible on entity-specific inputs.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

The Effective Interest Rate Method

The Effective Interest Method is a method of calculating the amortised cost of a Financial Asset or a Financial Liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the Financial Instrument or, when appropriate, a shorter period to the net carrying amount of the Financial Asset or Financial Liability.

Amortised Cost

Amortised Cost is the amount at which the Financial Asset or Financial Liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation, using the Effective Interest Rate Method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectability.

8.1 Financial Assets - Classification

A Financial Asset is any asset that is a cash, a contractual right to receive cash or another financial asset from another entity.

In accordance with GRAP 104 the Financial Assets of the municipality are classified as follows into the three categories allowed by this standard:

- Financial Assets measured at Amortised Cost are non-derivative Financial Assets with fixed or determinable payments that are not quoted in an active market. They are included in Current Assets, except for maturities greater than 12 months, which are classified as Non-current Assets. Financial Assets at Amortised Cost are initially recognised at fair value plus transaction costs that are directly attributable to the acquisition or issue of the Financial Asset. After initial recognition, Financial Assets are measured at amortised cost, using the Effective Interest Rate Method less a provision for impairment.
- Financial Assets measured at Fair Value are financial assets that meet either of the following conditions:
 - (i) Derivatives;
 - (ii) Combined instruments that are designated at fair value;
 - (iii) Instruments held for trading;
 - (iv) Non-derivative Financial Instruments with fixed or determinable payments that are designated at fair value at initial recognition; or
 - (v) Financial Instruments that do not meet the definition of Financial Instruments at Amortised Cost or Financial Instruments at Cost.
- Financial Assets measured at Cost are investments in residual Interest that do not have a quoted market price in an active market and whose fair value cannot be reliably measured.

The municipality has the following types of Financial Assets as reflected on the face of the Statement of Financial Position or in the Notes thereto:

Type of Financial Asset	Classification in terms of GRAP 104
Long-term Receivables	Financial Assets at Amortised Cost
Receivables from Exchange Transactions	Financial Assets at Amortised Cost
Receivables from Non-exchange Transactions	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Notice Deposits	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Call Deposits	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Bank	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Cash	Financial Assets at Fair Value
Current Portion of Long-term Receivables	Financial Assets at Amortised Cost

Cash includes cash-on-hand (including petty cash) and cash with banks (including call deposits). Cash Equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, which are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the Cash Flow Statement, Cash and Cash Equivalents comprise cash-on-hand and deposits held on call with banks, net of bank overdrafts. The municipality categorises Cash and Cash Equivalents as Financial Assets at Amortised Cost.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

8.2 Financial Liabilities – Classification

A Financial Liability is a contractual obligation to deliver cash or another Financial Assets to another entity.

There are three main categories of Financial Liabilities, the classification determining how they are measured. Financial Liabilities may be measured at:

- (i) Financial Liabilities measured at Fair Value;
- (ii) Financial Liabilities measured at Amortised Cost; or
- (iii) Financial Liabilities measured at Cost.

The municipality has the following types of Financial Liabilities as reflected on the face of the Statement of Financial Position or in the Notes thereto:

Type of Financial Asset	Classification in terms of GRAP 104
Payables from Exchange Transactions	Financial Liabilities at Amortised Cost
Payables from Non-exchange Transactions	Financial Liabilities at Amortised Cost

Financial Liabilities that are measured at Fair Value are Financial Liabilities that are essentially held for trading (i.e. purchased with the intention to sell or repurchase in the short term; derivatives other than hedging instruments or are part of a portfolio of Financial Instruments where there is recent actual evidence of short-term profiteering or are derivatives).

8.3 Initial and Subsequent Measurement

8.3.1 Financial Assets:

Financial Assets measured at Amortised Cost

Financial Assets at Amortised Cost are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue of the Financial Asset. Subsequently, these assets are measured at amortised cost using the Effective Interest Method less any impairment, with interest recognised on an Effective Yield Basis.

Trade and Other Receivables (excluding Value Added Taxation, Prepayments and Operating Lease receivables), Loans to Municipal Entities and Loans that have fixed and determinable payments that are not quoted in an active market are classified as Financial Assets at Amortised Cost.

Financial Assets measured at Fair Value

Financial Assets at Fair Value are initially measured at fair value, excluding directly attributable transaction costs. They are subsequently measured at fair value with unrealised gains or losses recognised directly in the Statement of Financial Performance.

8.3.2 Financial Liabilities:

Financial Liabilities measured at Fair Value

Financial Liabilities at Fair Value are stated at fair value, with any resulted gain or loss recognised in the Statement of Financial Performance.

Financial Liabilities held at Amortised Cost

Any other Financial Liabilities are classified as *Other Financial Liabilities* (All Payables, Loans and Borrowings are classified as Other Liabilities) and are initially measured at fair value, net of transaction costs. Trade and Other Payables, Interest-bearing Debt including Finance Lease Liabilities, Non-interest-bearing Debt and Bank Borrowings are subsequently measured at amortised cost using the *Effective Interest Rate Method*. Interest expense is recognised in the Statement of Financial Performance by applying the effective interest rate.

Prepayments are carried at cost less any accumulated impairment losses.

8.4 Impairment of Financial Assets

Financial Assets, other than those at fair value, are assessed for indicators of impairment at the end of each reporting period. Financial Assets are impaired where there is objective evidence of impairment of Financial Assets (such as the probability of insolvency or significant financial difficulties of the debtor). If there is such evidence the recoverable amount is estimated and an impairment loss is recognised in accordance with GRAP 104.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

8.4.1 Financial Assets at Amortised Cost

Accounts Receivable encompass Long-term Debtors, Receivables from Exchange Transactions (Consumer Debtors) and Receivables from Non-exchange Transactions (Other Debtors).

Initially Accounts Receivable are valued at fair value excluding transaction costs, and subsequently carried at amortised cost using the *Effective Interest Rate Method*. An estimate is made for doubtful debt based on past default experience of all outstanding amounts at year-end. Bad debts are written off the year in which they are identified as irrecoverable. Amounts receivable within 12 months from the date of reporting are classified as current.

A provision for impairment of Accounts Receivables is established when there is objective evidence that the municipality will not be able to collect all amounts due according to the original terms of receivables. The provision is made in accordance with GRAP 104 whereby the recoverability of accounts receivable is assessed individually and then collectively after grouping the assets in financial assets with similar credit risk characteristics. The amount of the provision is the difference between the Financial Asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Future cash flows in a group of Financial Assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Cash flows relating to short-term receivables are not discounted where the effect of discounting is immaterial.

Government accounts are not provided for as such accounts are regarded as receivable.

The carrying amount of the Financial Asset is reduced by the impairment loss directly for all Financial Assets carried at Amortised Cost with the exception of Consumer Debtors, where the carrying amount is reduced through the use of an allowance account. When a Consumer Debtor is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against revenue. Changes in the carrying amount of the allowance account are recognised in the Statement of Financial Performance.

8.4.2 Financial Assets at Cost

If there is objective evidence that an impairment loss has been incurred on an investment in a Residual Interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the Financial Asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses shall not be reversed.

8.5 Derecognition of Financial Assets

The municipality derecognises Financial Assets only when the contractual rights to the cash flows from the asset expires or it transfers the Financial Asset and substantially all the risks and rewards of ownership of the asset to another entity, except when Council approves the write-off of Financial Assets due to non-recoverability.

If the municipality neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the municipality recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the municipality retains substantially all the risks and rewards of ownership of a transferred Financial Asset, the municipality continues to recognise the Financial Asset and also recognises a collateralised borrowing for the proceeds received.

8.6 Derecognition of Financial Liabilities

The municipality derecognises Financial Liabilities when, and only when, the municipality's obligations are discharged, cancelled or they expire.

The municipality recognises the difference between the carrying amount of the Financial Liability (or part of a Financial Liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, in the Statement of Financial Performance.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

9. INVENTORIES

9.1 Initial Recognition

Inventories comprise current assets held-for-sale, current assets for consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus taxes, transport costs and any other costs in bringing the Inventories to their current location and condition. Where Inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where Inventory is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

Direct costs relating to properties that will be sold as Inventory are accumulated for each separately identifiable development. Costs also include a proportion of overhead costs.

9.2 Subsequent Measurement

9.2.1 Consumable Stores, Raw Materials, Work-in-Progress and Finished Goods

Consumable stores, raw materials, work-in-progress, inventories distributed at no charge or for a nominal charge and finished goods are valued at the lower of cost and net realisable value (net amount that the municipality expects to realise from the sale on Inventory in the ordinary course of business). The cost is determined using the *FIFO* cost of commodities.

9.2.2 Water Inventory

Water is regarded as Inventory when the municipality purchases water in bulk with the intention to resell it to the consumers or to use it internally, or where the municipality has incurred purification costs on water obtained from natural resources (rain, rivers, springs, boreholes, etc). However, water in dams, that are filled by natural resources and that has not yet been treated, that is under the control of the municipality but cannot be measured reliably as there is no cost attached to the water, is therefore not recognised in the Statement of Financial Position.

The basis of determining the cost of water purchased and not yet sold at Statement of Financial Position date comprises all costs of purchase, cost of conversion and other costs incurred in bringing the Inventory to its present location and condition, net of trade discounts and rebates.

Water and purified effluent are valued by using the *FIFO Method*, at the lowest of purified cost and net realisable value, insofar as it is stored and controlled in reservoirs at year-end.

9.2.3 Unsold Properties

Unsold properties are valued at the lower of cost and net realisable value on a *Weighted Average Cost Basis*. Direct costs are accumulated for each separately identifiable development. Cost also includes a portion of overhead costs, if this relates to development.

9.2.4 Other Arrangements

Redundant and slow-moving Inventories are identified and written down from cost to net realisable value with regard to their estimated economic or realisable values and sold by public auction. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses. Differences arising on the measurement of such Inventory at the lower of cost and net realisable value are recognised in the Statement of Financial Performance in the year in which they arise. The amount of any reversal of any write-down of Inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of Inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of Inventories is recognised as an expense in the period that the Inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

10. REVENUE RECOGNITION

10.1 General

Revenue is derived from a variety of sources which include rates levied, grants from other tiers of government and revenue from trading activities and other services provided.

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the municipality's activities. Revenue is shown net of value-added tax, returns, rebates and discounts.

The municipality recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits or service potential will flow to the municipality and when specific criteria have been met for each of the municipality's activities as described below, except when specifically stated otherwise. The amount of revenue is not considered to be reliably measurable until all contingencies relating to the sale have been resolved. The municipality bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement. Furthermore, services rendered are recognised by reference to the stage of completion of the transaction at the reporting date.

Revenue from Exchange Transactions refers to revenue that accrued to the municipality directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

Revenue from Non-exchange Transactions refers to transactions where the municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, stock rotation, price protection, rebates and other similar allowances.

10.2 Revenue from Exchange Transactions

10.2.1 Service Charges

Service Charges are levied in terms of approved tariffs.

Service Charges relating to electricity and water are based on consumption. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption, based on the consumption history, are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced, except at year-end when estimates of consumption up to year-end are recorded as revenue without it being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to all properties that have improvements. Tariffs are determined per category of property usage, and are levied based on the extent of each property.

Service charges relating to sewerage and sanitation are recognised on a monthly basis in arrears by applying the approved tariff to all properties. Tariffs are determined per category of property usage, and are levied based on the extent of each property.

In circumstances where services cannot readily be measured and quantified, a flat rate service charge is levied monthly on such properties.

10.2.2 Prepaid Electricity

Revenue from the sale of electricity prepaid meter cards are recognised at the point of sale. Revenue from the sale of electricity prepaid meter cards are recognised based on an estimate of the prepaid electricity consumed as at the reporting date.

10.2.3 Rentals Received

Revenue from the rental of facilities and equipment is recognised on a Straight-line Basis over the term of the lease agreement.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

10.2.4 Finance Income

Interest earned on investments is recognised in the Statement of Financial Performance on the *Time-proportionate Basis* that takes into account the effective yield on the investment.

10.2.5 Tariff Charges

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant authorised tariff. This includes the issuing of licences and permits.

10.2.6 Revenue from Agency Services

Revenue for agency services is recognised on a monthly basis once the revenue collected on behalf of agents has been quantified. The revenue recognised is in terms of the agency agreement.

10.2.7 Sale of Goods (including Houses)

Revenue from the sale of goods is recognised when all the following conditions have been met:

- (a) The municipality has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) The municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) The amount of revenue can be measured reliably;
- (d) It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

10.3 Revenue from Non-exchange Transactions

An inflow of resources from a Non-exchange Transaction, that meets the definition of an asset shall be recognised as an asset when it is probable that the future economic benefits or service potential associated with the asset will flow to the municipality and the fair value of the asset can be measured reliably. The asset shall be recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

A present obligation arising from a Non-exchange Transaction that meets the definition of a liability will be recognised as a liability when it is probable that an outflow of economic benefit will be required to settle the obligation and a reliable estimate of the amount can be made.

10.3.1 Rates and Taxes

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a *Time-proportionate Basis* with reference to the principal amount receivable and effective interest rate applicable. A composite rating system charging different rate tariffs is employed. Rebates are granted to certain categories of ratepayers and are deducted from revenue.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

10.3.2 Fines

Fines constitute both spot fines and summonses. Revenue from the issuing of fines is recognised when it is probable that the economic benefits or service potential will flow to the municipality and the amount of the revenue can be measured reliably.

Revenue for fines is recognised when the fine is issued at the full amount of the receivable, considering the allowance in terms of IGRAP 1 to use estimates to determine the amount of revenue that the municipality is entitled to collect.

Assessing and recognising impairment is an event that takes place subsequent to the initial recognition of revenue charged. The municipality assesses the probability of collecting revenue when accounts fall into arrears. Such an assessment is not be made at the time of initial recognition.

10.3.3 Public Contributions

Donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the criteria, conditions or obligations have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

Revenue from public contributions is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment are brought into use.

Assets acquired from non-exchange transactions are measured at fair value in accordance with the Standards of GRAP.

10.3.4 Government Grants and Receipts

Conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the criteria, conditions or obligations have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the municipality with no future related costs, are recognised in the Statement of Financial Performance in the period in which they become receivable.

Interest earned on investments is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor and if it is the municipality's interest, it is recognised as interest earned in the Statement of Financial Performance.

Revenue is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment are brought into use.

10.3.5 Revenue from Recovery of Unauthorised, Irregular, Fruitless and Wasteful Expenditure

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No 56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

11. PROVISIONS

Provisions are recognised when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the obligation.

The best estimate of the expenditure required to settle the present obligation is the amount that the municipality would rationally pay to settle the obligation at the reporting date or to transfer it to a third party at that time and are determined by the judgment of the management of the municipality, supplemented by experience of similar transactions and, in some cases, reports from independent experts. The evidence considered includes any additional evidence provided by events after the reporting date. Uncertainties surrounding the amount to be recognised as a provision are dealt with by various means according to the circumstances. Where the provision being measured involves a large population of items, the obligation is estimated by weighting all possible outcomes by their associated probabilities.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision. An onerous contract is a contract in which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it – this unavoidable cost resulting from the contract is the amount of the provision to be recognised.

Provisions are reviewed at reporting date and the amount of a provision is the present value of the expenditure expected to be required to settle the obligation. When the effect of discounting is material, provisions are determined by discounting the expected future cash flows that reflect current market assessments of the time value of money. The impact of the periodic unwinding of the discount is recognised in the Statement of Financial Performance as a finance cost as it occurs.

11.1 Provision for Environmental Rehabilitation

Estimated long-term environmental provisions, comprising rehabilitation and landfill site closure, are based on the municipality's policy, taking into account current technological, environmental and regulatory requirements. The provision for rehabilitation is recognised as and when the environmental liability arises. To the extent that the obligations relate to the asset, they are capitalised as part of the cost of those assets. Any subsequent changes to an obligation that did not relate to the initial related asset are charged to the Statement of Financial Performance.

12. EMPLOYEE BENEFIT LIABILITIES

12.1 Short-term Employee Benefits

Remuneration to employees is recognised in the Statement of Financial Performance as the services are rendered, except for non-accumulating benefits which are only recognised when the specific event occurs.

The municipality has opted to treat its provision for leave pay as an accrual.

The costs of all short-term employee benefits such as leave pay, are recognised during the period in which the employee renders the related service. The liability for leave pay is based on the total accrued leave days at year end and is shown as a creditor in the Statement of Financial Position. The municipality recognises the expected cost of performance bonuses only when the municipality has a present legal or constructive obligation to make such payment and a reliable estimate can be made.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

12.2 Post-employment Benefits

The municipality provides retirement benefits for its employees and councillors, and has both defined benefit and defined contribution post-employment plans.

12.2.1 Defined Contribution Plans

A **Defined Contribution Plan** is a plan under which the municipality pays fixed contributions into a separate entity. The municipality has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to service in the current or prior periods.

The municipality's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognised in the Statement of Financial Performance in the period in which the service is rendered by the relevant employees. The municipality has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

12.2.2 Defined Benefit Plans

A **Defined Benefit Plan** is a post-employment benefit plan other than a defined contribution plan.

Post-retirement Health Care Benefits

The municipality has an obligation to provide Post-retirement Health Care Benefits to certain of its retirees. According to the rules of the Medical Aid Funds with which the municipality is associated, a member (who is on the current Conditions of Service), on retirement, is entitled to remain a continued member of the Medical Aid Fund, in which case the municipality is liable for a certain portion of the medical aid membership fee. Not all Medical Aid Funds with which the Municipality is associated, provide for continued membership.

The defined benefit liability is the aggregate of the present value of the defined benefit obligation and unrecognised actuarial gains and losses, reduced by unrecognised past service costs. The plan is unfunded. The present value of the defined benefit obligation is calculated using the *Projected Unit Credit Method*, incorporating actuarial assumptions and a discount rate based on the government bond rate. Valuations of these obligations are carried out annually by independent qualified actuaries.

Actuarial gains or losses are recognised immediately in the Statement of Financial Performance.

Past-service costs are recognised immediately in the Statement of Financial Performance.

Long-service Allowance

The municipality has an obligation to provide Long-service Allowance Benefits to all of its employees. According to the rules of the Long-service Allowance Scheme, which the municipality instituted and operates, an employee (who is on the current Conditions of Service), is entitled to a cash allowance, calculated in terms of the rules of the scheme, after 10, 15, 20, 25 and 30 years of continued service. The municipality's liability is based on an actuarial valuation. The *Projected Unit Credit Method* is used to value the liabilities. Actuarial gains and losses on the long-term incentives are accounted for through the Statement of Financial Performance.

Provincially-administered Defined Benefit Plans

The municipality contributes to various National- and Provincial-administered Defined Benefit Plans on behalf of its qualifying employees. These funds are multi-employer funds. The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. These defined benefit funds are actuarially valued triennially on the Projected Unit Credit Method basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

Defined Benefit Pension Plans

The municipality has an obligation to provide Post-retirement Pension Benefits to certain of its retirees. Pension contributions in respect of employees who were not members of a pension fund are recognised as an expense when incurred. Staff provident funds are maintained to accommodate personnel who, due to age, cannot join or be part of the various pension funds. The municipality contributes monthly to the funds.

The liability recognised in the Statement of Financial Position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets, together with adjustments for unrecognised past-service costs. The defined benefit obligation is calculated annually by independent actuaries using the *Projected Unit Credit Method*. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.

Actuarial gains or losses are recognised immediately in the Statement of Financial Performance.

Past-service costs are recognised immediately in the Statement of Financial Performance.

13. LEASES

13.1 Classification

Leases are classified as **Finance Leases** where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality.

Leases of property, plant and equipment, in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as **Operating Leases**.

13.2 The Municipality as Lessee

13.2.1 Operating Leases

The municipality recognises operating lease rentals as an expense in the Statement of Financial Performance on a *Straight-line Basis* over the term of the relevant lease. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a *Straight-line Basis*, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

13.3 The Municipality as Lessor

Amounts due from lessees under **Finance Leases** or instalment sale agreements are recorded as receivables at the amount of the municipality's net investment in the leases. Finance lease or instalment sale revenue is allocated to accounting periods so as to reflect a constant periodic rate of return on the municipality's net investment outstanding in respect of the leases or instalment sale agreements.

Rental revenue from **Operating Leases** is recognised on a *Straight-line Basis* over the term of the relevant lease.

14. GRANTS-IN-AID

The municipality transfers money to individuals, organisations and other sectors of government from time to time. When making these transfers, the municipality does not:

- (a) Receive any goods or services directly in return, as would be expected in a purchase or sale transaction;
- (b) Expect to be repaid in future; or
- (c) Expect a financial return, as would be expected from an investment.

These transfers are recognised in the Statement of Financial Performance as expenses in the period that the events giving rise to the transfer occurred.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

15. VALUE ADDED TAX

The municipality accounts for Value Added Tax on the Payments Basis in accordance with section15(2)(a) of the Value-Added Tax Act (Act No 89 of 1991).

16. UNAUTHORISED EXPENDITURE

Unauthorised Expenditure is expenditure that has not been budgeted for, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state, and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No 56 of 2003). All expenditure relating to Unauthorised Expenditure is accounted for as an expense in the Statement of Financial Performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

17. IRREGULAR EXPENDITURE

Irregular Expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No 56 of 2003), the Municipal Systems Act (Act No 32 of 2000), the Public Office Bearers Act (Act No 20 of 1998), or is in contravention of the Municipality's or Municipal Entities' Supply Chain Management Policies. Irregular Expenditure excludes Unauthorised Expenditure. Irregular Expenditure is accounted for as an expense in the Statement of Financial Performance in the period it occurred and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

18. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and Wasteful Expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. All expenditure relating to Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

19. MATERIAL LOSSES

The MFMA requires the disclosure of material losses incurred during the year under review. The disclosure is provided in order to comply to the legislative requirements governing Municipalities and Municipal Entities.

Due to their significance, the complete calculation of water and electricity losses is provided, including the opening balance, purchases, sales and closing balance where applicable. The unit rate is the rate per the last purchase as inventory is measured based on the First-In-First-Out Method as defined by GRAP 12 (Inventories).

20. CHANGES IN ACCOUNTING POLICIES, ESTIMATES AND ERRORS

Changes in Accounting Policies that are affected by management have been applied retrospectively in accordance with GRAP 3 requirements, except to the extent that it is impractical to determine the period-specific effects or the cumulative effect of the change in policy. In such cases the municipality restated the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practical. Details of Changes in Accounting Policies are disclosed in the Notes to the Annual Financial Statements where applicable.

Changes in Accounting Estimates are applied prospectively in accordance with GRAP 3 requirements. Details of changes in estimates are disclosed in the Notes to the Annual Financial Statements where applicable.

Correction of Errors is applied retrospectively in the period in which the error has occurred in accordance with GRAP 3 requirements, except to the extent that it is impractical to determine the period-specific effects or the cumulative effect of the error. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practical. Details of Correction of Errors are disclosed in the Notes to the Annual Financial Statements where applicable.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

21. TREATMENT OF ADMINISTRATION AND OTHER OVERHEAD EXPENSES

The costs of internal support services are transferred to the various services and departments to whom resources are made available.

22. CONTINGENT ASSETS AND CONTINGENT LIABILITIES

Contingent Liabilities represent a possible obligation that arises from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the municipality. A contingent liability can also arise as a result of a present obligation that arises from past events but which is not recognised as a liability either because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Contingent Assets represent possible assets that arise from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the municipality.

Contingent Assets and Contingent Liabilities are not recognised. Contingencies are disclosed in Notes to the Annual Financial Statements.

23. COMMITMENTS

Commitments are future expenditure to which the municipality committed and that will result in the outflow of resources. Commitments are not recognised in the Statement of Financial Position as a liability or as expenditure in the Statement of Financial Performance, but are included in the disclosure Notes. A distinction is made between capital and current commitments.

Commitments are disclosed for:

- Approved and contracted commitments, where the expenditure has been approved and the contract has been awarded at the reporting date, where disclosure is required by a specific standard of GRAP.
- Approved but not yet contracted commitments, where the expenditure has been approved and the contract has yet to be awarded or is awaiting finalisation at the reporting date.
- Items are classified as commitments where the municipality commits itself to future transactions that will normally result in the outflow of resources.
- Contracts that are entered into before the reporting date, but goods and services have not yet been received are disclosed in the disclosure Notes to the Annual Financial Statements.
- Other commitments for contracts that are non-cancellable or only cancellable at significant cost, should relate to something other than the business of the municipality.

24. RELATED PARTIES

Individuals as well as their close family members, and/or entities are related parties if one party has the ability, directly or indirectly, to control or jointly control the other party or exercise significant influence over the other party in making financial and/or operating decisions. Management is regarded as a related party and comprises the Councillors, Mayor, Executive Committee Members, Municipal Manager, Chief Financial Officer and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

25. EVENTS AFTER THE REPORTING DATE

Events after the reporting date that are classified as adjusting events have been accounted for in the Annual Financial Statements. The events after the reporting date that are classified as Non-adjusting Events after the Reporting Date have been disclosed in Notes to the Annual Financial Statements.

26. COMPARATIVE INFORMATION

26.1 Current Year Comparatives

In accordance with GRAP 1 Budgeted Amounts have been provided and forms part of the Annual Financial Statements.

26.2 Prior Year Comparatives

When the presentation or classification of items in the Annual Financial Statements is amended, prior period comparative amounts are reclassified. The nature and reason for the reclassification is disclosed.

26.3 Budget Information

The annual budget figures have been prepared in accordance with the GRAP standard and are consistent with the Accounting Policies adopted by the Council for the preparation of these Annual Financial Statements. The amounts are scheduled as a separate additional financial statement, called the Statement of Comparison of Budget and Actual amounts. Explanatory comment is provided in the statement giving reasons for overall growth or decline in the budget and motivations for over- or under spending on line items. The annual budget figures included in the Annual Financial Statements are for the municipality and do not include budget information relating to subsidiaries or associates. These figures are those approved by the Council at the beginning and during the year following a period of consultation with the public as part of the Integrated Development Plan. The budget is approved on an accrual basis by nature classification.

The approved budget covers the period from 1 July 2015 to 30 June 2016.

2016 2015 R R

1. GENERAL INFORMATION

Mogalakwena Municipality (the municipality) is a local government institution in Mokopane, Limpopo Province, and is one of six local municipalities under the jurisdiction of the Waterberg District Municipality. The addresses of its registered office and principal place of business are disclosed under "General Information" included in the Annual Financial Statements and in the introduction of the Annual Report. The principal activities of the municipality are disclosed in the Annual Report and are prescribed by the Municipal Finance Management Act (MFMA).

2. INVENTORIES

Total Inventories	9 166 275	9 608 220
Water - at cost	196 756	184 573
Property Stock	1 131 443	1 192 193
Consumable Stores	7 838 076	8 231 455

Inventories are held for own use and measured at the lower of Cost and Current Replacement Cost. No write downs of Inventory to Net Realisable Value were required.

The cost of water production for the year amounted to R5,76 per kilolitre (2015: R5,33 per kilolitre).

The cost of Inventories recognised as an expense during the period was R11 117 884 (2015: R10 234 734).

Inventories of R3 735 006 (2015: R3 544 061) are expected to be utilised only after more than twelve months.

Inventories of R2 940 912 (2015: R2 002 644) are held as spare parts for infrastructure assets and have been transferred to Property, Plant and Equipment.

No Inventories have been pledged as collateral for Liabilities of the municipality.

Receivables from Exchange Transactions have been restated to correctly classify Output VAT accrued in terms of GRAP 23, previously recognised as VAT Receivable. Refer to Note 48.4 on "Correction of Error" for details of the restatement.

Furthermore, Receivables from Exchange Transactions have been restated to correctly classify amounts held for Exchange Transactions, previously recognised as Non-exchange Transactions. Refer to Note 48.4 on "Correction of Error" for details of the restatement.

Included in Service Debtors is an amount of R9 793 941 (2015: R9 118 156) in respect of the consumption of metered services not billed as at 30 June.

Other Receivables include outstanding debtors for various other services, e.g. Arrangements, Deposits, Housing, Interest, Rentals and Sundry Services like Garden Refuse, Sanitation Bags, etc.

Receivables from Exchange Transactions are billed monthly, latest end of month. No interest is charged on Receivables until the end of the following month. Thereafter interest is charged at a rate determined by council on the outstanding balance.

The municipality receives applications that it processes. Deposits are required to be paid for all electricity and water accounts opened. There are no consumers who represent more than 5% of the total balance of Receivables.

At 30 June 2016, the municipality is owed R67 802 401 (30 June 2015: R57 470 447) by National and Provincial Government.

The municipality did not pledge any of its Receivables as security for borrowing purposes.

3.3 Reconciliation of the Provision for Impairment				
Balance at beginning of year			279 436 222	228 573 223
Impairment Losses recognised			67 512 423	50 862 999
Impairment Losses reversed			- · · · · · · · · · · · ·	-
Amounts written off as uncollectable			_	_
Balance at end of year			346 948 646	279 436 222

In determining the recoverability of Receivables, the municipality has placed strong emphasis on verifying the indigent status of consumers. Provision for impairment of Receivables has been made for all consumer balances outstanding based on the payment ratio over 12 months per service type. No further credit provision is required in excess of the Provision for Impairment.

No provision has been made in respect of government debt as these amounts are considered to be fully recoverable. The municipality holds collateral over these balances in the form of Consumer Deposits / Guarantees, which are not covering the total outstanding debt and vacant property respectively.

Total Receivables from Non-exchange Transactions	80 384 344	45 771 479	34 612 865

Receivables from Non-exchange Transactions have been restated to correctly classify amounts held for Exchange Transactions, previously recognised as Non-exchange Transactions. Refer to Note 48.4 on "Correction of Error" for details of the restatement.

Grant Expenditure Recoverable is in respect of DWA Grant Moneys withheld and recoverable from National Treasury.

Sundry Deposits are in respect of cash deposits made to Eskom for the supply of electricity.

Sundry Debtors are in respect of debits outstanding at year-end on normal business transactions entered into by the municipality.

The municipality does not hold deposits or other security for its Receivables.

None of the Receivables have been pledged as security for the municipality's financial liabilities.

4.3 Reconciliation of Provision for Impairment				
Balance at beginning of year			45 771 479	42 722 513
Impairment Losses recognised			11 908 792	9 716 739
Impairment Losses reversed			-	-
Amounts written off as uncollectable			(4 731 525)	(6 667 773)
Balance at end of year			52 948 746	45 771 479

The Provision for Impairment on Receivables exists predominantly due to the possibility that these debts will not be recovered. The Provision for Impairment was calculated after grouping all the financial assets of similar nature and risk ratings and assessing the recoverability.

In determining the recoverability of a Rates Assessment Debtor and Receivables from Non-exchange Transactions, the municipality considers any change in the credit quality of the Rates Assessment Debtor from the date credit was initially granted up to the reporting date. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, the management believe that there is no further credit provision required in excess of the Provision for Impairment.

No Provision for Impairment has been made in respect of government debt as these amounts are considered to be fully recoverable. The municipality holds collateral over these balances in the form of Rates Assessment Deposits / Guarantees, which are not covering the total outstanding debt and vacant property respectively.

Furthermore, no Provision for Impairment was calculated on Receivables other than Assessment Rates Debtors as the management is of the opinion that all Receivables are recoverable within normal credit terms.

5. VAT RECEIVABLE

Vat Receivable 42 788 643 -

VAT Receivable has been restated to correctly classify Input VAT accrued in terms of GRAP 23, previously recognised as VAT Receivable. Refer to Note 48.4 on "Correction of Error" for details of the restatement.

Vat is payable on the receipts basis. Only once payment is received from debtors, VAT is paid over to SARS.

No interest is payable to SARS if the VAT is paid over timeously, but interest for late payments is charged according to SARS policies. The municipality has financial risk policies in place to ensure that payments are affected before the due date.

7. OPERATING LEASE RECEIVABLES

Operating Leases are recognised on the straight-line basis as per the requirement of GRAP 13. In respect of Non-cancellable Operating Leases the following assets have been recognised:

Total Operating Lease Receivables	90 538	90 826
Operating Lease Revenue effected	(260 275)	(856 233)
Operating Lease Revenue recorded	259 987	753 751
Balance at beginning of year	90 826	193 308

Operating Lease Receivables have been restated to correctly disclose the amount for Operating Lease Receivables in terms of the Lease Register, contracts not previously recognised. Refer to Note 48.4 on "Correction of Error" for details of the restatement.

7.1 Leasing Arrangements

The Municipality as Lessor:

Operating Leases relate to Property owned by the municipality with lease terms of between 1 to 79 (2015: 1 to 80) years, with an option to extend.

All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have an option to purchase the property at the expiry of the lease period.

The property rental income earned by the municipality from its Investment Property, all of which is leased out under operating leases, amounted to R153 731 (2015: R614 922).

7.2 Amounts receivable under Operating Leases

At the Reporting Date the following minimum lease payments were receivable under Non-cancellable Operating Leases for Property, Plant and Equipment, which are receivable as follows:

Total Operating Lease Arrangements	751 095	757 931
More than 5 years	190 469	144 490
2 to 5 years	372 337	370 711
Up to 1 year	188 289	242 730

The impact of charging the escalations in Operating Leases on a straight-line basis over the term of the lease has been an increase of R288 (2015: decrease of R102 482) in current year income.

The following restrictions have been imposed by the municipality in terms of the lease agreements:

- (i) The lessee shall not have the right to sublet, cede or assign the whole or any portion of the premises let.
- (ii) The lessor or its duly authorised agent, representative or servant shall have the right at all reasonable times to inspect the premises let.
- (iii) The lessee shall use the premises let for the sole purpose prescribed in the agreement.

8. CURRENT PORTION OF LONG-TERM RECEIVABLES

Total Current Portion of Long-term Receivables	2 304 594	3 840 797
Study Cost Loans	43 380	43 380
Sale of Stand Loans	762 078	673 065
Debtors Capitalised Loans	1 499 136	3 124 352

9 PROPERTY, PLANT AND EQUIPMENT (Continued)

Plant and Equipment has been restated to disclose the amount for Water Infrastructure, projects previously capitalised that were not completed at year-end. Refer to Note 47.4 on "Correction of Error" for details of the restatement.

Furthermore, *Plant and Equipment* has been restated to correctly disclose the depreciation for Water Infrastructure, projects previously completed but not depreciated. Refer to Note 47.4 on "Correction of Error" for details of the restatement.

Furthermore, *Plant and Equipment* has been restated to correctly disclose the Infrastructure and its depreciation for projects previously completed but not recognised as such. Refer to Note 47.4 on "Correction of Error" for details of the restatement.

Furthermore, *Property, Plant and Equipment* has been restated to disclose the correct amount for Rehabilitation Costs of Landfill Sites, previously not calculated correctly. Refer to Note 47.4 on "Correction of Error" for details of the restatement.

Other movements of Property, Plant and Equipment include the transfer of Major Spare Parts to the amount of R938 268 (2015: R-374 531) and Work-in-Progress of R223 985 362 (2015: R146 509 937) completed and transferred to Cost.

Refer to Appendices "B, C and E (4)" for more detail on Property, Plant and Equipment, including those in the course of construction.

MOGALAKWENA MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

2016 2015 R R

9 PROPERTY, PLANT AND EQUIPMENT (Continued)

9.1 Gross Carrying Amount of Property, Plant and Equipment that is fully depreciated and still in use

There are no Property, Plant and Equipment that is fully depreciated at year-end and still in use by the municipality.

9.2 Carrying Amount of Property, Plant and Equipment retired from active use and not classified as a Discontinued Operation

Other	6 467	6 467
Carrying Amount of PPE retired from active use and held for disposal	6 467	6 467

9.3 Assets pledged as security

The municipality did not pledge any of its assets as security.

9.4 Impairment of Property, Plant and Equipment

Impairment Losses on Property, Plant and Equipment to the amount of R0 (2015: R43 852) has been recognised in operating surplus and are included in Impairment Losses in the Statement of Financial Performance as indicated in Note 39.

The amount disclosed for impairment losses on Property, Plant and Equipment does not include individually material amounts of impairment losses. However, cumulative impairment losses for the following significant account balances are included therein:

Total Impairment of Property, Plant and Equipment		43 852
Other Assets: Office Equipment	-	2 886
Other Assets: Furniture and Fittings	-	38 505
Other Assets: Computer Equipment	-	2 462

Impairment losses on Property, Plant and Equipment exist predominantly due to technological obsolescence of information technology equipment. The remainder of impaired items of Property, Plant and Equipment have been physically damaged, stolen or have become redundant and idle.

9.5 Change in Estimate - Useful Life of Property, Plant and Equipment reviewed

There was no change (2014/15: R0) in the estimated useful life of various assets of the municipality for the financial year.

9.6 Land and Buildings carried at Fair Value

The municipality's Land and Buildings are accounted for according to the cost model and therefore no fair value has been determined.

9.7 Work-in-Progress

The municipality has incurred expenditure on capital projects which were not completed at year-end. The details of the carrying amounts of expenditure included in each class of assets are listed below:

Total Carrying Amounts of Work-in-Progress	693 917 823	419 063 552
Community Assets: Sports Facilities	27 911 131	4 695 158
Infrastructure: Water	515 795 736	328 170 290
Infrastructure: Sewerage	109 148 360	47 207 391
Infrastructure: Roads	18 558 843	28 891 568
Infrastructure: Electricity	9 266 833	8 209 523
Buildings	13 236 919	1 889 623

			·

The amortisation expense has been included in the line item "Depreciation and Amortisation" in the Statement of Financial Performance (see Note 38).

All of the municipality's Intangible Assets are held under freehold interests and no Intangible Assets had been pledged as security for any liabilities of the municipality.

No restrictions apply to any of the Intangible Assets of the municipality.

Refer to Appendix "B" for more detail on Intangible Assets.

10.1 Significant Intangible Assets

Significant Intangible Assets, that did not meet the recognition criteria for Intangible Assets as stipulated in GRAP 102 and SIC 32, are the following:

(i) Website Costs incurred during the last two financial years, if applicable, have been expensed and not recognised as Intangible Assets. The municipality cannot demonstrate how its website will generate probable future economic benefits.

2016 2015 R R

10.2 Intangible Assets with Indefinite Useful Lives

The municipality amortises all its Intangible Assets and no of such assets are regarded as having indefinite useful lives.

The useful lives of the Intangible Assets remain unchanged from the previous year.

10.3 Impairment of Intangible Assets

No impairment losses have been recognised on Intangible Assets of the municipality at the reporting date

10.4 Work-in-Progress

The municipality had no capital projects for Intangible Assets which were not completed at year-end.

11 INVESTMENT PROPERTY

DEBTORS CAPITALISED

Arrear amounts on services are capitalised on completion of a formal agreement or upon being handed over to attorneys for collection. These arrear amounts are then paid to the municipality in monthly instalments over a period not exceeding 48 months. No interest is charged on these amounts where the stipulations of the agreement are adhered to.

SALE OF STANDS

Stands are sold on a cash/bank guarantee basis. The outstanding loans are repayable in the year 2011/12.

STUDY COST LOANS

In terms of the MFMA no Study Cost Loans are granted anymore. The outstanding amount is in respect of loans granted before 01 July 2005. Beneficiaries were entitled to Study Cost Loans at an interest rate of 5,00% per annum, repayable over a maximum period of 6 years. The balance of the loans are in respect of third parties and are repayable in the year 2011/12.

The municipality does not hold deposits or any other security for its Long-term Receivables.

No Long-term Receivables have been pledged as security for the municipality's financial liabilities.

	2016 R	2015 R

16 PAYABLES FROM EXCHANGE TRANSACTIONS

Total Payables	226 536 378	156 692 018
Other Creditors	300 000	300 000
Retentions	74 781 364	41 553 562
Trade Creditors	151 455 014	114 838 456

Payables from Exchange Transactions have been restated to correctly disclose payments made reversed in the prior year, previously not recognised. Refer to Note 48.4 on "Correction of Error" for details of the restatement.

Furthermore, *Payables from Exchange Transactions* have been restated to correctly disclose the liability for Workmen's Compensation Insurance, previously not assessed and accrued. Refer to Note 48.4 on "Correction of Error" for details of the restatement.

Furthermore, *Payables from Exchange Transactions* have been restated to correctly disclose the liability for Pre-paid Electricity not consumed at Year-end, previously incorrectly assessed and accrued. Refer to Note 48.4 on "Correction of Error" for details of the restatement.

The average credit period on purchases is 127 (2015: 106) days, as opposed to 30 days from the receipt of the invoice as determined by the MFMA.

No interest is charged for the first 30 days from the date of receipt of the invoice. Thereafter interest is charged in accordance with the credit policies of the various individual creditors that the municipality deals with.

The municipality did not default on any payment of its Creditors. No terms for payment have been renegotiated by the municipality.

17 PAYABLES FROM NON-EXCHANGE TRANSACTIONS

990 922	830 493
602 861	356 341
24 813 449	20 728 474

Local Government Grants	750 171	1 724 465
Other Spheres of Government	184 552	184 552

The Unspent Conditional Grants and Receipts are invested in investment accounts until utilised.

See Note 28 for the reconciliation of Grants from Government and Note 29 for the reconciliation of Other Conditional Receipts. The municipality complied with the conditions attached to all grants received to the extent of revenue recognised. No grants were withheld.

Refer to Appendix "F" for more detail on Conditional Grants.

19 VAT PAYABLE

Vat Payable - 12 118 612

VAT Payable has been restated to correctly classify Input VAT accrued in terms of GRAP 23, previously recognised as VAT Receivable. Refer to Note 48.4 on "Correction of Error" for details of the restatement.

Vat is payable on the receipts basis. Only once payment is received from debtors, VAT is paid over to SARS.

No interest is payable to SARS if the VAT is paid over timeously, but interest for late payments is charged according to SARS policies. The municipality has financial risk policies in place to ensure that payments are affected before the due date.

20 OPERATING LEASE LIABILITIES

Operating Leases are recognised on the straight-line basis as per the requirement of GRAP 13. No liability existed at 30 June as none of the contracts has any escalation clauses.

Total Operating Lease Liabilities	-	-
Operating Lease payments effected	(297 762)	(339 052)
Operating Lease expenses recorded	297 762	339 052
Balance at beginning of year	-	-

20.1 Leasing Arrangements

The Municipality as Lessee:

Operating Leases relate to Property, Plant and Equipment with lease terms not longer than 5 years, with an option to extend for a further period. All operating lease contracts contain market review clauses in the event that the municipality exercises its option to renew. The municipality does not have an option to purchase the leased asset at the expiry of the lease period.

2016	2015
R	R

20.2 Amounts payable under Operating Leases

At the Reporting Date the municipality had outstanding commitments under Non-cancellable Operating Leases for Property, Plant and Equipment, which fall due as follows:

Other Equipment:	247 281	545 044
Up to 1 year	202 849	297 762
2 to 5 years	44 432	247 281
More than 5 years	-	-
Total Operating Lease Arrangements	247 281	545 044
The following payments have been recognised as an expense in the Statement of Financial Performance:		
Minimum lease payments	297 762	339 052
Total Operating Lease Expenses	297 762	339 052

The municipality has operating lease agreements for the following classes of assets, which are only significant collectively:

- Office Equipment

The following restrictions have been imposed on the municipality in terms of the lease agreements on Office Equipment:

- (i) The equipment shall remain the property of the lessor.
- (ii) The hirer shall not sell, sublet, cede, assign or delegate any of its rights or obligations on the equipment.
- (iii) The equipment shall be returned in good order and condition to the lessor upon termination of the agreement.
- (iv) The municipality is obliged to enter into a maintenance agreement with the lessor for the equipment rented.

21 EMPLOYEE BENEFIT LIABILITIES

Total Post-retirement Health Care Benefits Liability	67 344 358	66 268 666
Transfer to Current Provisions	(1 741 728)	(1 642 452)
Balance at end of Year	69 086 086	67 911 118
Contributions to Provision	2 817 420	10 574 364
Balance at beginning of Year	66 268 666	57 336 754
21.1 Post-retirement Health Care Benefits Liability		
Total Employee Benefit Liabilities	76 593 297	74 745 203
Long Service Awards Liability	9 248 939	8 476 537
Post-retirement Health Care Benefits Liability	67 344 358	66 268 666

The municipality provides certain post-retirement health care benefits by funding the medical aid contributions of qualifying retired members of the municipality. According to the rules of the Medical Aid Funds, with which the municipality is associated, a member (who is on the current Conditions of Service) is entitled to remain a continued member of such medical aid fund on retirement, in which case the municipality is liable for a certain portion of the medical aid membership fee. The municipality operates an unfunded defined benefit plan for these qualifying employees. No other post-retirement benefits are provided to these employees.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2015 by Mr C Weiss, Fellow of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

	2016 R	2015 R
The members of the Post-employment Health Care Benefit Plan are made up as follows:		
In-service Members (Employees)	276	271
In-service Non-members (Employees)	411	417
Continuation Members (Retirees, widowers and orphans)	41	43
Total Members	728	731
The liability in respect of past service has been estimated as follows:		
In-service Members	28 819 529	28 378 888
In-service Non-members	20 237 894	18 095 917
Continuation Members	20 028 662	21 436 313
Total Liability	69 086 086	67 911 118

The municipality makes monthly contributions for health care arrangements to the following Medical Aid Schemes:

- Bonitas
- Hosmed
- Keyhealth
- LA Health
- Samwumed

The Current-service Cost for the year ending 30 June 2016 is estimated to be R3 487 922, whereas the cost for the ensuing year is estimated to be R3 537 354 (30 June 2015: R3 193 425 and R3 487 922 respectively).

The principal assumptions used for the purposes of the actuarial valuations were as follows:

Discount Rate	9.45%	9.08%
Health Care Cost Inflation Rate	8.48%	8.15%
Net Effective Discount Rate	0.89%	0.86%
Expected Retirement Age - Females	63	63
Expected Retirement Age - Males	63	63
Movements in the present value of the Defined Benefit Obligation were as follows:		
Balance at the beginning of the year	67 911 118	58 758 838
Current service costs	3 487 922	3 193 425
Interest cost	6 093 650	5 346 679
Benefits paid	(1 642 452)	(1 422 084)
Actuarial losses / (gains)	(6 764 152)	2 034 260
Total Recognised Benefit Liability	69 086 086	67 911 118
The amounts recognised in the Statement of Financial Position are as follows:		
Present value of fund obligations	69 086 086	67 911 118
Unfunded Accrued Liability	69 086 086	67 911 118
Total Benefit Liability	69 086 086	67 911 118
The amounts recognised in the Statement of Financial Performance are as follows:		
Current service cost	3 487 922	3 193 425
Interest cost	6 093 650	5 346 679
Actuarial losses / (gains)	(6 764 152)	2 034 260

21.2 Long Service Awards Liability					
Balance at beginning of year Contributions to provision				8 476 537 1 873 027	7 853 151 1 779 984
Balance at end of Year			_	10 349 564	9 633 135
Transfer to Current Provisions				(1 100 625)	(1 156 598)
Total Long Service Awards Liability			_	9 248 939	8 476 537

The municipality operates an unfunded defined benefit plan for all its employees. Under the plan, a Long-service Award is payable after 10 years of continuous service, and every 5 years of continuous service thereafter to 45 years, to employees. The provision is an estimate of the long-service based on historical staff turnover. No other long-service benefits are provided to employees.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2015 by Mr C Weiss, Fellow of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

At year end, 687 (2015: 688) employees were eligible for Long-service Awards.

The Current-service Cost for the year ending 30 June 2016 is estimated to be R932 884, whereas the cost for the ensuing year is estimated to be R980 309 (30 June 2015: R812 932 and R932 884 respectively).

The movement in the Provision for Rehabilitation of Land-fill Sites is reconciled as follows:		
Balance at beginning of year	11 986 000	10 870 000
Contributions to provision	(790 142)	1 116 000
	11 195 858	11 986 000
Transfer to current provisions	-	-
Balance at end of year	11 195 858	11 986 000

22.1 Rehabilitation of Land-fill Sites

In terms of the licencing of the landfill refuse sites, the municipality will incur licensing and rehabilitation costs of R11 195 858 (2015: R11 986 000) to restore the sites at the end of their useful lives. Provision has been made for the net present value of the future cost, using the average cost of borrowing interest rate.

The municipality will incur rehabilitation cost on its two dumping/landfill sites in the periods 2023/24 and 2024/25. Provision has been made for the net present value of this cost.

	Rehabilitation		
Mokopane Landfill	2023/24	8 927 490	9 932 000

23 ACCUMULATED SURPLUS

The Accumulated Surplus consists of the following Internal Funds and Reserves:

Total Accumulated Surplus	2 340 343 536	1 961 756 565
Accumulated Surplus / (Deficit) due to the results of Operations	219 666 422	185 109 049
Government Grants Reserve	1 636 672 011	1 294 306 651
Donations and Public Contributions Reserve	1 012 505	1 181 345
Capitalisation Reserve	155 199 488	165 418 576
Capital Replacement Reserve (CRR)	327 793 110	315 740 943

Accumulated Surplus has been restated to correctly classify amounts held by the municipality as indicated below. Refer to Note 48.1 "Correction of Error" for details of the restatements.

The **Capital Replacement Reserve** is a reserve to finance future capital expenditure and is fully invested in ring-fenced Financial Instrument Investments.

The **Capitalisation Reserve** equals the carrying value of the items of property, plant and equipment from the former legislated funds. The Capitalisation Reserve ensures consumer equity and is not backed by cash.

The **Donations and Public Contributions Reserve** equals the carrying value of the items of property, plant and equipment financed from public contributions and donations. The Donations and Public Contributions Reserve ensures consumer equity and is not backed by cash.

The **Government Grants Reserve** equals the carrying value of the items of property, plant and equipment financed from government grants. The Government Grants Reserve ensures consumer equity and is not backed by cash.

Refer to Statement of Changes in Net Assets for more detail and the movement on Accumulated Surplus.

Total Receipts for Property Rates		_	42 300 749	43 072 433

Property Rates have been restated to correctly classify the cost for Free Basic Services provided, previously not classified correctly. Refer to Note 48.2 on "Correction of Error" for details of the restatement.

Property Rates are levied on the value of land and improvements, which valuation is performed every four years. The last valuation came into effect on 1 July 2013.

Interim valuations are processed on a continuous basis to take into account changes in individual property values due to alterations and subdivisions.

An general rate is applied as follows to property valuations to determine property rates:

Residential Properties: 0,9573 c/R (2014/15: 0,9031 c/R) Business Properties: 1,9326 c/R (2014/15: 1,8232 c/R) Agricultural Properties: 0,2393 c/R (2014/15: 0,2258 c/R)

Wellfare Organisations are exempted from the payment of rates, whilst the first R15 000,00 of the valuation on improved residential properties is exempted from the payment of rates.

A rebate of 40,00% (2014/15: 40,00%) was allowed on improved residential properties and flats whilst a discount of 30,00% (2014/15: 30,00%) was granted on properties owned by the State. Welfare organisations are exempted from property rates.

Rates are levied monthly on property owners and are payable the end of each month. Interest is levied at a rate determined by council on outstanding rates amounts.

In terms of the Constitution, this grant is used to subsidise the provision of basic services to indigent community members. All registered indigents receive a monthly subsidy up to R229 (2015: R229), based on the monthly billing, towards the consumer account, which subsidy is determined annually by council. All residential households receive 6 kl water and 50 kWh electricity (indigents only) free every month. No funds have been withheld.

	Sale of Electricity	212 374 207	183 106 818
	Sale of Water Refuse Removal	58 101 308 12 110 362	49 568 567 11 813 724
	Sewerage and Sanitation Charges	14 316 791	14 165 013
	Total Service Charges	296 902 668	258 654 122
	30.1 Calculation of Cash Flow:		
	Service Charges Income	296 902 668	258 654 122
	Opening Balance of Debtors: Service Charges	368 181 458	311 973 718
	Closing Balance of Debtors: Service Charges	(450 052 438)	(368 181 458)
	Total Receipts for Service Charges	215 031 688	202 446 381
	Service Charges have been restated to correctly classify the cost for Free Basic Services provided, previously not classified correctly. Refer to Note 48.2 on "Correction of Error" for details of the restatement.		
	Furthermore, Service Charges have been restated to correctly disclose the liability for Pre-paid Electricity not consumed at Year-end, previously incorrectly assessed and accrued. Refer to Note 48.2 on "Correction of Error" for details of the restatement.		
	The amounts disclosed above for revenue from Service Charges are in respect of services rendered which are billed to the consumers on a monthly basis according to approved tariffs.		
31	RENTAL OF FACILITIES AND EQUIPMENT		
	Rental Revenue from Other Facilities	571 872	906 903
	Total Rental of Facilities and Equipment	571 872	906 903

Rental revenue earned on Facilities and Equipment is in respect of Non-financial Assets rented out.

47 CHANGE IN ACCOUNTING POLICY

The municipality adopted the following Accounting Standards for the first time during the financial year 2015/16 in order to comply with the basis of preparation of the Annual Financial Statements as disclosed in Accounting Policy 1:

- GRAP 105 Transfers between Entities under common control issued November 2010
- GRAP 106 Transfers between Entities not under common control issued November 2010
- GRAP 107 Mergers issued November 2010

47.1 GRAP 105 - Transfers between Entities under common control

The Accounting Standard for Transfers between Entities under common control has been recognised in the Annual Financial Statements of the municipality as at 30 June 2016 in terms of GRAP 105.

The municipality has developed Accounting Policies to fully comply with GRAP 105 (Transfers between Entities under common control). No tranfers in terms of GRAP 105 occurred during the reporting period and there is no need for restatement of prior year figures.

2016 2015 R R

47.2 GRAP 106 - Transfers between Entities not under common control

The Accounting Standard for *Transfers between Entities not under common control* has been recognised in the Annual Financial Statements of the municipality as at 30 June 2016 in terms of GRAP 106.

The municipality has developed Accounting Policies to fully comply with GRAP 106 (*Transfers between Entities not under common control*). No transfers in terms of GRAP 106 occurred during the reporting period and there is no need for restatement of prior year figures.

47.3 GRAP 107 - Mergers

The Accounting Standard for *Mergers* has been recognised in the Annual Financial Statements of the municipality as at 30 June 2016 in terms of GRAP 107.

The municipality has developed Accounting Policies to fully comply with GRAP 107 (*Mergers*). No mergers in terms of GRAP 107 occurred during the reporting period and there is no need for restatement of prior year figures.

The above-mentioned changes in Accounting Policies had no effect on the Accumulated Surplus as at 30 June 2015 and the Accumulated Surplus of prior years was not affected either.

48 CORRECTION OF ERROR

Corrections were made during the previous financial years. Details of the corrections are described below:

48.1 Reclassification of Accumulated Surplus

The prior year figures of Accumulated Surplus has been restated to correctly disclose the monies held by the municipality in terms of the disclosure notes indicated below.

The effect of the changes are as follows:

		Accumulated Surplus
Balances published as at 30 June 2014		1 801 495 127
Correction of Error:-		
Adjustment for Provision for Claim for Damages - Note 48.4	(300 000)	
Adjustment for Operating Lease Receivables - Note 48.4	(382)	
Adjustment for Landfill Site Rehabilitation - Note 48.4	3 931 131	
Adjustment for Infrastructure Assets from WIP - Note 48.4	(42 175)	
Adjustment for Pre-paid Electricity accrued at Year-end - Note 48.4	178 089	
Adjustment for Workmen's Compensation Assessment - Note 48.4	(1 952 396)	1 814 267
Restated Balances as at 30 June 2014		1 803 309 394
Transactions incurred for the Year 2014/15		162 873 202
Correction of Error:-		
Adjustment for Operating Lease Receivables - Note 48.4	5 570	
Adjustment for depreciation of Infrastructure Assets - Note 48.4	(2 373 562)	
Adjustment for Landfill Site Rehabilitation - Note 48.4	(669 795)	
Adjustment for Infrastructure Assets from WIP - Note 48.4	(498 854)	
Adjustment for Pre-paid Electricity accrued at Year-end - Note 48.4	19 507	
Adjustment for Workmen's Compensation Assessment - Note 48.4	(908 897)	(4 426 031)
Restated Balances as at 30 June 2015		1 961 756 565

2016 2015 R R

48.2 Reclassification of Revenue

The prior year figures of Revenue Classes have been restated to correctly classify the nature of Revenue of the municipality.

The effect of the Correction of Error is as follows:

	Prior Year 2014/15	Current Year 2014/15	Restated
	Revenue	Revenue	Amount
Property Rates	50 878 539	50 368 506	510 032
Fines	5 165 864	5 165 864	-
Licences and Permits	32 395	32 395	-
Income for Agency Services	7 940 469	7 940 469	-
Government Grants and Subsidies Received	527 245 141	527 245 141	-
Public Contributions and Donations	2 563 989	2 563 989	-
Service Charges	274 427 019	258 654 122	15 772 897
Rental of Facilities and Equipment	906 903	906 903	-
Interest Earned - External Investments	34 756 864	34 756 864	-
Interest Earned - Outstanding Debtors	17 969 233	17 969 233	-
Other Income	4 304 942	4 310 511	(5 570)

2016 2015 R R

53.9 Bulk Electricity and Water Losses in terms of Section 125 (2)(d)(i) of the MFMA

Material Electricity and Water Losses were as follows and are not recoverable:

Electricity:

		Lost Units	Tariff	Value
30 June 2016	Unaccounted Electricity Losses	24 686 049	0.7862	19 408 172
30 June 2015	Unaccounted Electricity Losses	42 621 250	0.6982	29 758 157

Electricity Losses occur due to *inter alia*, technical and non-technical losses (Technical losses - inherent resistance of conductors, transformers and other electrical equipment; Non-technical losses - the tampering of meters, the incorrect ratios used on bulk meters, faulty meters and illegal electricity connections). The problem with tampered meters and illegal connections is an ongoing process, with regular action being taken against defaulters. Faulty meters are replaced as soon as they are reported.

55.2 Fair Value

The following methods and assumptions were used to estimate the Fair Value of each class of Financial Instrument for which it is practical to estimate such value:

Cash

The carrying amount approximates the Fair Value because of the short maturity of these instruments.

Long-term Investments

The Fair Value of some Investments are estimated based on quoted market prices of those or similar investments. Unlisted Equity Investments are estimated using the discounted cash flow method.

Loan Receivables/Payables

Interest-bearing Borrowings and Receivables are generally at interest rates in line with those currently available in the market on a floating-rate basis, and therefore the Fair Value of these Financial Assets and Liabilities closely approximates their carrying values. Fixed interest-rate instruments are fair valued based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

Trade and Other Receivables/Payables

The Fair Value of Trade and Other Payables is estimated at the present value of future cash flows.

The management of the municipality is of the opinion that the carrying value of Trade and Other Receivables recorded at amortised cost in the Annual Financial Statements approximate their fair values. The Fair Value of Trade Receivables were determined after considering the standard terms and conditions of agreements entered into between the municipality and other parties as well as the current payment ratios of the municipality's debtors.

Other Financial Assets and Liabilities

The Fair Value of Other Financial Assets and Financial Liabilities (excluding Derivative Instruments) is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments.

Long-term Liabilities

The Fair Value of Long-term Liabilities was determined after considering the standard terms and conditions of agreements entered into between the municipality and the relevant financing institutions.

Management considers the carrying amounts of Financial Assets and Financial Liabilities recorded at amortised cost in the Annual Financial Statements to approximate their Fair Values on 30 June 2016, as a result of the short-term maturity of these assets and liabilities.

No Financial Instruments of the municipality have been reclassified during the year.

2016 2015 R R

Assumptions used in determining Fair Value of Financial Assets and Financial Liabilities

The table below analyses Financial Instruments carried at Fair Value at the end of the reporting period by the level of fair-value hierarchy as required by GRAP 104. The different levels are based on the extent to which quoted prices are used in the calculation of the Fair Value of the Financial Instruments. The levels have been defined as follows:

Level 1:

Fair Values are based on guoted market prices (unadjusted) in active markets for an identical instrument.

Level 2:-

Fair Values are calculated using valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments, quoted prices for identical or similar instruments in markets that are considered less than active, or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3:-

Fair Values are based on valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. Also, this category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

2016 2015 R R

55.3 Capital Risk Management

The municipality manages its capital to ensure that the municipality will be able to continue as a going concern while delivering sustainable services to consumers through the optimisation of the debt and equity balance. The municipality's overall strategy remains unchanged from 2015.

The capital structure of the municipality consists of debt, which includes Cash and Cash Equivalents and Equity, comprising Funds, Reserves and Accumulated Surplus as disclosed in Note 23 and the Statement of Changes in Net Assets.

Gearing Ratio

	2016 R	2015 R
The gearing ratio at the year-end was as follows:		
Debt Cash and Cash Equivalents	0 (505 496 241)	(0) (509 256 588)
Net Debt	(505 496 241)	(509 256 588)
Equity	2 340 343 536	1 961 756 565
Net debt to equity ratio	-21.60%	-25.96%

Debt is defined as Long-term Liabilities, together with its Short-term Portion.

Equity includes all Funds and Reserves of the municipality, disclosed as Net Assets in the Statement of Financial Performance and Net Debt as described above.

55.4 Financial Risk Management Objectives

The Accounting Officer has overall responsibility for the establishment and oversight of the municipality's risk management framework. The municipality's risk management policies are established to identify and analyse the risks faced by the municipality, to set appropriate risk limits and controls and to monitor risks and adherence to limits.

Due to the largely non-trading nature of activities and the way in which they are financed, municipalities are not exposed to the degree of financial risk faced by business entities. Financial Instruments play a much more limited role in creating or changing risks that would be typical of listed companies to which the IAS's mainly apply. Generally, Financial Assets and Liabilities are generated by day-to-day operational activities and are not held to manage the risks facing the municipality in undertaking its activities.

The Department Financial Services monitors and manages the financial risks relating to the operations through internal policies and procedures. These risks include interest rate risk, credit risk and liquidity risk. Compliance with policies and procedures is reviewed by the internal auditors on a continuous basis, and annually by external auditors. The municipality does not enter into or trade financial instruments for speculative purposes.

Internal audit, responsible for initiating a control framework and monitoring and responding to potential risk, reports periodically to the municipality's audit committee, an independent body that monitors the effectiveness of the internal audit function.

Further quantitative disclosures are included throughout these Annual Financial Statements.

2016 2015 R R

55.5 Significant Risks

It is the policy of the municipality to disclose information that enables the user of its Annual Financial Statements to evaluate the nature and extent of risks arising from Financial Instruments to which the municipality is exposed on the reporting date.

The municipality has exposure to the following risks from its operations in Financial Instruments:

- Credit Risk;
- Liquidity Risk; and
- Market Risk.

Risks and exposures are disclosed as follows:

Market Risk

Market Risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the municipality's income or the value of its holdings in Financial Instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Credit Risk

Credit Risk is the risk of financial loss to the municipality if a customer or counterparty to a Financial Instrument fails to meet its contractual obligations and arises principally from the municipality's receivables from customers and investment securities.

Liquidity Risk

Liquidity Risk is the risk that the municipality will encounter difficulty in meeting the obligations associated with its Financial Liabilities that are settled by delivering cash or another financial asset. The municipality's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the municipality's reputation.

Liquidity Risk is managed by ensuring that all assets are reinvested at maturity at competitive interest rates in relation to cash flow requirements. Liabilities are managed by ensuring that all contractual payments are met on a timeous basis and, if required, additional new arrangements are established at competitive rates to ensure that cash flow requirements are met.

A maturity analysis for Financial Liabilities (where applicable) that shows the remaining undiscounted contractual maturities is disclosed in Note 55.8 to the Annual Financial Statements.

55.6 Market Risk

The municipality's activities expose it primarily to the financial risks of changes in interest rates (see Note 55.7 below). No formal policy exists to hedge volatilities in the interest rate market.

There has been no change to the municipality's exposure to market risks or the manner in which it manages and measures the risk.

55.6.1 Foreign Currency Risk Management

The municipality's activities do not expose it to the financial risks of foreign currency and therefore has no formal policy to hedge volatilities in the interest rate market.

55.6.2 Interest Rate Risk Management

Interest Rate Risk is defined as the risk that the fair value or future cash flows associated with a financial instrument will fluctuate in amount as a result of market interest changes.

Potential concentrations of interest rate risk consist mainly of variable rate deposit investments, long-term receivables, consumer debtors, other debtors, bank and cash balances.

The municipality limits its counterparty exposures from its money market investment operations by only dealing with Absa Bank, First National Bank, Nedbank and Standard Bank. No investments with a tenure exceeding twelve months are made.

2016 2015 R R

Consumer Debtors comprise of a large number of ratepayers, dispersed across different industries and geographical areas. Consumer debtors are presented net of a provision for impairment.

In the case of debtors whose accounts become in arrears, it is endeavoured to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy. Consumer Deposits are increased accordingly.

Long-term Receivables and Other Debtors are individually evaluated annually at Balance Sheet date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

The municipality is not exposed to credit interest rate risk as the municipality has no borrowings.

The municipality's exposures to interest rates on Financial Assets and Financial Liabilities are detailed in the Credit Risk Management section of this note.

Interest Rate Sensitivity Analysis

The sensitivity analysis has been determined based on the exposure to interest rates at the Statement of Financial Position date. The analysis is prepared by averaging the amount of the investment at the beginning of the financial year and the amount of the investment at the end of the financial year. A 100 basis point increase or decrease was used, which represents management's assessment of the reasonably possible change in interest rates. The short and long-term financial instruments at year-end with variable interest rates are set out in Note 55.8 below:

Cash and Cash Equivalents:

If interest rates had been 100 basis points higher / lower and all other variables were held constant, the municipality's:

• Surplus for the year ended 30 June 2016 would have increased / decreased by R274 655 (30 June 2015: R343 877). This is mainly attributable to the municipality's exposure to interest rates on its variable rate investments.

55.7 Credit Risk Management

Credit Risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the municipality. The municipality has a sound credit control and debt collection policy and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The municipality uses its own trading records to assess its major customers. The municipality's exposure of its counterparties are monitored regularly.

Potential concentrations of credit rate risk consist mainly of variable rate deposit investments, long-term receivables, consumer debtors, other debtors, bank and cash balances.

Investments/Bank, Cash and Cash Equivalents

The municipality limits its counterparty exposures from its money market investment operations (financial assets that are neither past due nor impaired) by only dealing with Absa Bank, First National Bank, Nedbank and Standard Bank. No investments with a tenure exceeding twelve months are made.

Trade and Other Receivables

Trade and Other Receivables are amounts owed by consumers and are presented net of impairment losses. The municipality has a credit risk policy in place and the exposure to credit risk is monitored on an ongoing basis. The municipality is compelled in terms of its constitutional mandate to provide all its residents with basic minimum services without recourse to an assessment of creditworthiness. Subsequently, the municipality has no control over the approval of new customers who acquire properties in the designated municipal area and consequently incur debt for rates, water and electricity services rendered to them.

The municipality limits this risk exposure in the following ways, in addition to its normal credit control and debt management procedures:

- The application of section 118(3) of the Municipal Systems Act (MSA), which permits the municipality to refuse connection of services whilst any amount remains outstanding from a previous debtor on the same property;
- A new owner is advised, prior to the issue of a revenue clearance certificate, that any debt remaining from the previous owner will be transferred to the new owner, if the previous owner does not settle the outstanding amount;
- The consolidation of rates and service accounts, enabling the disconnecting services for the non-payment of any of the individual debts, in terms of section 102 of the MSA;
- The requirement of a deposit for new service connections, serving as guarantee and are reviewed annually;
- Encouraging residents to install water management devices that control water flow to households, and/or prepaid electricity meters.

There were no material changes in the exposure to credit risk and its objectives, policies and processes for managing and measuring the risk during the year under review. The municipality's maximum exposure to credit risk is represented by the carrying value of each financial asset in the Statement of Financial Position, without taking into account the value of any collateral obtained. The municipality has no significant concentration of credit risk, with exposure spread over a large number of consumers, and is not concentrated in any particular sector or geographical area.

2016 2015 R R

The municipality establishes an allowance for impairment that represents its estimate of anticipated losses in respect of trade and other receivables.

Payment of accounts of consumer debtors, who are unable to pay, are renegotiated as an ongoing customer relationship in response to an adverse change in the circumstances of the customer in terms of the Credit Control and Debt Collection Policy.

Long-term Receivables and Other Debtors are individually evaluated annually at reporting date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

The municipality does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The municipality defines counterparties as having similar characteristics if they are related entities. The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings.

The table below shows the balance of the 5 major counterparties at the balance sheet date. Management is of the opinion that, although these parties are the 5 counterparties with highest outstanding balances, no significant credit risk exposure exists based on the payment history of the parties, except for Northern Province Academy of Sport and Department of Water and Forestry Affairs for which there is uncertainty about the collectivity. They have been included in the Provision for Impairment of Consumer Debtors.

Credit quality Groupings:

Group 1 - High certainty of timely payment. Liquidity factors are strong and the risk of non-payment is small.

Group 2 - Reasonable certainty of timely payment. Liquidity factors are sound, although ongoing funding needs may enlarge financing requirement. The risk of non-payment is small.

Group 3 - Satisfactory liquidity factors and other factors which qualify the entity as investment grade. However, the risk factors of non-payment are larger.

None of the financial assets that are fully performing have been renegotiated in the last year.

55 FINANCIAL INSTRUMENTS (Continued)

55.8 Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the Council, which has built an appropriate liquidity risk management framework for the management of the municipality's short, medium and long-term funding and liquidity management requirements. The municipality manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Included in Note 51 C67is a listing of additional undrawn facilities that the municipality has at its disposal to further reduce liquidity risk (cash).

Liquidity and Interest Risk Tables

The municipality ensures that it has sufficient cash on demand or access to facilities to meet expected operational expenses through the use of cash flow forecasts.

The following tables detail the municipality's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the municipality can be required to pay. The table includes both interest and principal cash flows.

The municipality has access to financing facilities, the total unused amount which is R0 (2014: R0), at the reporting date. The municipality expects to meet its other obligations from operating cash flows and proceeds of maturing financial assets. The municipality expects to maintain current debt to equity ratio. This will be achieved through increased service tariff charges and the increased use of unsecured bank loan facilities.

55.9 Other Price Risks

The municipality is not exposed to equity price risks arising from equity investments as the municipality does not trade these investments.

2016 2015 R R

56 MULTI-EMPLOYER RETIREMENT BENEFIT INFORMATION

The municipality makes provision for post-retirement benefits to eligible councillors and employees, who belong to different pension schemes.

All councillors belong to the Pension Fund for Municipal Councillors.

Employees belong to a variety of approved Pension and Provident Funds as described below.

These funds are governed by the Pension Funds Act and include both defined benefit and defined contribution schemes.

All of these afore-mentioned funds are multi-employer plans and are subject to either a tri-annual, bi-annual or annual actuarial valuation, details which are provided below.

Sufficient information is not available to use defined benefit accounting for the pension and retirement funds, due to the following reasons:-

- (i) The assets of each fund are held in one portfolio and are not notionally allocated to each of the participating employers.
- (ii) One set of financial statements are compiled for each fund and financial statements are not drafted for each participating employer.
- (iii) The same rate of contribution applies to all participating employers and no regard is paid to differences in the membership distribution of the participating employers.

It is therefore seen that each fund operates as a single entity and is not divided into sub-funds for each participating employer.

The only obligation of the municipality with respect to the retirement benefit plans is to make the specified contributions. Where councillors / employees leave the plans prior to full vesting of the contributions, the contributions payable by the municipality are reduced by the amount of forfeited contributions.

The total expense recognised in the Statement of Financial Performance of R25 402 126 (2015: R23 842 206) represents contributions payable to these plans by the municipality at rates specified in the rules of the plans. These contributions have been expensed.

The Retirement Funds have been valued by making use of the Discounted Cash Flow method of valuation.

DEFINED BENEFIT SCHEMES

Municipal Employees Pension Fund:

The scheme is subject to a tri-annual actuarial valuation. The last statutory valuation was performed as at 28 February 2014.

The statutory valuation performed as at 28 February 2014 revealed that the net assets of the fund were R0,0 (28 February 2011: R552,8) million, with a funding level of 100,0% (28 February 2011: 107,9%). The contribution rate paid by the members (7,50%) and Council (15,00%, 18,00% and 22,00%) is not sufficient to fund the benefits accruing from the fund in the future and there is a shortfall in the future employer contribution rate of 12,80% (28 February 2011: 8,10%).

No further information could be obtained.

DEFINED CONTRIBUTION SCHEMES

Municipal Councillors Pension Fund:

The scheme is subject to a tri-annual actuarial valuation. The last statutory valuation was performed as at 30 June 2015.

The statutory valuation performed as at 30 June 2015 revealed that the net assets of the fund were R2 551,9 (30 June 2012: R1 183,5) million, with a funding level of 101,8% (30 June 2012: 99,5%). The contribution rate paid by the members (13,75%) and Council (15,00%) is sufficient to fund the benefits accruing from the fund in the future.

At 30 June the fund showed an excess of R27,7 (2012: deficit R6,4) million before allowing for reserves and was certified to be in a sound financial condition by the actuaries, Moruba Consultants and Actuaries.

As reported by the Actuaries, the Fund was following an appropriate investment strategy duiring the valuation period.

Municipal Employees Gratuity Fund:

The scheme is subject to a tri-annual actuarial valuation. The last statutory valuation was performed as at 30 June 2014.

The valuation performed as at 30 June 2014 revealed that the market value of the fund was R17 651 (30 June 2013: 14 565) million. The contribution rate payable (7,50% by the member and 22,00% by the employer), is sufficient to fund the benefits accruing from the fund in the future. The fund was certified to be in sound financial condition as at 30 June 2014.

No further information could be obtained.

2016	2015
R	R

National Fund for Municipal Workers

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2015.

The scheme's assets amounted to R10 050,0 (2014: R9 031,8) million at 30 June.

The statutory valuation performed as at 30 June 2015 revealed that the fund had a surplus of 41,8 (30 June 2014: R9,3) million, with a funding level of 100,42% (30 June 2014: 100,10%). The contribution rate paid by the members (minimum of 2,00% to 7,00%) and the municipalities (minimum of 2,00% to 7,00%) is sufficient to fund the benefits accruing from the fund in the future.

The monthly deductions for cost were sufficient to cover the expenses incurred over the valuation period. The Trustees, with the support of the Valuator, must continue to monitor the position on an annual basis.

None of the above mentioned plans are State Plans.

57 RELATED PARTY TRANSACTIONS

All Related Party Transactions are conducted at arm's length, unless stated otherwise.

57.1 Interest of Related Parties

Councillors and/or management of the municipality had relationships with businesses during the financial period as indicated below:

Name of Related Person	Designation	Description of Related Party Relationship
Langa MJ	Councillor	Director of and 100% Interest in Mothushi Corporation
Mabula NS	Councillor	Director of Mapela Irrigation Primary Cooperative Limited; Director of Phaphamang Agriculture Cooperative Limited
Matsemela A	Councillor	Director of Ba Kopane Cooperative; Director of Basapi Ba Mapela; Director of Lebaobab Holdings
Molaba MS	Councillor	Shareholder with 60% interest in Komahlapo Cleaning (Pty) Ltd; Shareholder with 60% interest in Mankale Mining (Pty) Ltd
Kekana VH	Councillor	Director of and 50% Interest in Leokga Trading & Enterprise
Manamela LE	Councillor	Director of and 50% Interest in Motangtang Electrical
Morkel-Brink GE	Councillor	Trustee of Babsita Family Trust; Trustee of BV Pretorius Family Trust; Trustee of Welda Du Toit Trust
Setlatjile KD	Councillor	Director of and 33% Interest in Servimark 133
De Villiers IA	Deputy Manager	20% Interest in AMS Haven 139; Director of and 20% Interest in Altmic Properties 55; Director of and 33,3% Interest in Romanesque Property Investments 49
Joubert WD	Deputy Manager	Son-in-Law is the owner of Diesel Power Truck Repairs CC
Tsebe KC	Divisional Head	Director of Grandorff Africa; Director of and 100% interest in K2012109033; Member of and 50% interest in Mafatseng Trading and Projects 82; Director of and 100% interest in Tholing Solutions
Molewa DM	Official (SCM)	100% Ownership in MBT Cosmetics
Maharala LA	Official	Director of and 100% Interest in Livestock Wealth; Director of and 50% Interest in S & T Ice Manufacturing Company
Nelushi M	Official	Director of and 100% Interest in Edmarex (Pty) Ltd

For the Year ended 30 June 2015				
Councillors	36 430	86 092	311	73 425
Municipal Manager and Section 57 Personnel	2 520	5 162	-	10 576
Total Services	38 950	91 254	311	84 001

The services rendered to Related Parties are charged at approved tariffs that were advertised to the public. No Bad Debts were written off or recognised in respect of amounts owed by Related Parties.

The amounts outstanding are unsecured and will be settled in cash. Consumer Deposits were received from Councillors, the Municipal Manager and Section 57 Personnel. No expense has been recognised in the period for bad or doubtful debts in respect of the amounts owed by related parties.

57.3 Loans granted to Related Parties

In terms of the MFMA, the municipality may not grant loans to its Councillors, Management, Staff and Public with effect from 1 July 2004. Loans, together with the conditions thereof, granted prior to this date are disclosed in Note 13 to the Annual Financial Statements.

57.4 Compensation of Related Parties

Compensation of Key Management Personnel and Councillors is set out in Notes 35, 36 and Appendix G, Statement of Remuneration of Management, to the Annual Financial Statements.

2016 2015 R R

57.5 Purchases from Related Parties

The municipality bought goods from the following companies, which are considered to be Related Parties:

Company Name	Related Person	Company Capacity	Municipal Capacity	Purchases for the Year	Purchases for the Year
Diesel Power Truck Repairs	Oosthuizen DP	Owner (In-law)	Official	1 658 271	3 428 538
Total Purchases				1 658 271	3 428 538

The transactions were concluded in full compliance with the municipality's Supply Chain Management Policy and the transactions are considered to be at arm's length.

8 CONTINGENT LIABILITIES		
58.1 Court Proceedings:	51 908 932	42 977 117
(i) Dispute on Water Account: The municipality is being sued by a consumer, Academy of Sports Excellence, for a dispute on their water account. The municipality is defending the claim based on legal advice. The claimed amount does not include legal costs. Should the municipality be unsuccessful in defending the claim, there is a possibility that the claim will be settled from its Provision for Bad Debts. The municipality is proceeding with a debtor's claim of R860 000 against the plaintiff. A 3rd defendant was located and served with a summons, and entered defence. The original trial date was set for 17 November 2014. The outcome of the case is still uncertain. The school has subsequently been closed.	96 000	96 000
(ii) Claim for Losses Sustained: A claim was received from Emang Development Projects CC for alleged losses sustained when the municipality terminated the contract they were working on grounds of non-performance. No progress has been made to date and a trial date is awaited. The outcome of the matter is still uncertain.	365 132	365 132
(iii) Repossession of Land: The municipality has cancelled a deed of sale due to non-compliance by the purchaser, Gov-Al Properties CC, and repossessed the portion of land. Gov-Al Properties CC is now suing the municipality in the High Court in order to get possession of the land again. The case was removed from the roll on 5 May 2008. Subsequently a summons was received and a trial date was set for 3 May 2011, which was postponed. The Plaintiff did not file replication and seems to have lost interest. The outcome of the case is still unknown.	817 513	817 513
(iv) Claim for Violation of Human Dignity: A claim was received from MS Bambo for the violation of his dignity. The municipality invited the claimant to an interview for a vacant position, but claimant was not appointed. An irregular step procedure has been taken as the Plaintiff did not provide an address within 8 km from Court. Subsequently, the municipality's attorney filed a Notice of Motion for Dismissal with costs. The return date was 30 August 2013. The outcome of the matter is still uncertain.	157 001	157 001
(v) Termination of Contract: The municipality is being sued by MA Ntjana Construction CC for termination of contract and contractual increases not paid. The case has been referred to the municipality's Attorney to defend. Heads of Arguments were filed during July 2013 and no further progress has been made since. The outcome of the matter is still uncertain.	10 100 000	10 100 000
(vi) Claim for Defamation: The municipality is being sued by MH Thobejane for termination of contract and defamation. Mr Thobejane's contract has been terminated after being found guilty to 26 cases of fraud. In terms of the Systems Act the Municipal Manager instituted action against Mr Thobejane in terms of which he cannot enter into employment at Local Government for 10 years because of misconduct. This is a counterclaim by Mr Tobejane on the municipality's claim against him to recover losses incurred because of the misconduct. The case has been referred to the municipality's Attorney to defend. Plaintiff's plea against counterclaim has been filed. The outcome of the matter is still uncertain.	30 341 632	30 341 632
(vii) Claim for 20% Refund of Purchases: The municipality is being sued individually by 29 persons for refund of 20% of the price of land purchased from the municipality. Land developed by the municipality was valued in 2008 and sold at such valuation plus 20%. Subsequently the market stagnated and during 2010/11 Council resolved to market the remaining land at original valuation. The people who previously purchased the land are now claiming back the 20% they paid in excess of the original valuation. The matters were referred to the municipality's Attorney to defend. The plaintiffs' plea against counterclaim have been filed. 9 Matters were heard in court on 31 January 2014. Cost orders in 8 matters were in favour of the municipality, whilst in the other case the costs were reserved. Subsequently all 9 matters were postponed sine die	918 687	918 687

whilst in the other case the costs were reserved. Subsequently all 9 matters were postponed sine die.

	2016 R	2015 R
(viii) Claim for Services Rendered: A claim was received from J Molebatsi for services allegedly rendered, being hiring of sound system, and not paid for. The case has been postponed on request of the plaintiff. The outcome of the matter is still uncertain.	80 000	80 000
(ix) Claim for Services Rendered: A claim was received from Photo Luxury Tours for services allegedly rendered, being hiring of transport services, and not paid for. A trial date is awaited. The outcome of the matter is still uncertain.	71 000	71 000
(x) Claim for Storage Fees - Restated: The municipality is being sued by George Edward Morkel Brink and Others for storage costs of municipal vehicles for the period 01/03/2013 to 20/10/203. The case has been referred to the municipality's Attorney to defend. Pleadings were exchanged which led to a pre-trial conference on 23/11/2016. The outcome of the matter is still uncertain.	30 153	30 153
(xi) Claim for Breach of Contract: A claim was received from Mmusho Security & Projects for breach of contract. The case has been enrolled for 20 October 2016. The outcome of the matter is still uncertain.	1 141 090	-
(xii) Claim for Services Rendered: A claim was received from CSI Africa for services rendered, and not paid for. The case is in exchange of pleadings stage, and a plea has been filed. The outcome of the matter is still uncertain.	376 256	-
(xiii) Claim for Damages Suffered: A claim was received from R Vigus for alleged damages suffered, caused by a pothole in the road. The matter is on-going and the outcome is still uncertain.	16 553	-
(xiv) Claim for Services Rendered: A claim was received from High Risk Reaction Unit for services rendered, and not paid for. D/J was erroneously granted and the attorneys are busy with an application to rescind judgement. The outcome of the matter is still uncertain.	7 397 916	-
(xv) Job Evaluation: Council resolved that a complete Job Evaluation Exercise must be performed to address the salary disparities for all staff. The outcome of the evaluation is still unknown and the effect thereof could not be estimated by management.	-	-
58.2 Insurance Claims:	5 581 463	3 508 344
(i) Alleged Damages Incurred: Claims lodged against the municipality for alleged damages caused by incidents of which the	5 581 463	3 508 344

59 CONTINGENT ASSETS

The municipality was not engaged in any transaction or event during the year under review involving Contingent Assets.

municipality should take ownership, have been referred to the municipality's insurers.

2016	2015
R	R

60 IN-KIND DONATIONS AND ASSISTANCE

The municipality received the following in-kind donations and assistance:

(i)	Secondment of Acting Municipal Manager by Department of COGHTA for 2 months	205 833
(ii)	Secondment of Acting Municipal Manager by Waterberg District Municipality for 6 months	-
(iii)	Secondment of Acting Chief Financial Officer by Provincial Treasury for 2 months	697 333

61 PRIVATE PUBLIC PARTNERSHIPS

The municipality was not a party to any Private Public Partnerships during the year under review.

62 EVENTS AFTER THE REPORTING DATE

No events having financial implications requiring disclosure occurred subsequent to 30 June 2016.

63 COMPARATIVE FIGURES

The comparative figures were restated as a result of the effect of Changes in Accounting Policies (Note 47) and Prior Period Errors (Note 48).

64 GOING CONCERN ASSESSMENT

Management considered the following matters relating to the Going Concern:

- (i) On 22 June 2016 the Council adopted the 2016/17 to 2018/19 Budget. This three-year Medium Term Revenue and Expenditure Framework (MTREF) to support the ongoing delivery of municipal services to residents reflected that the Budget was cash-backed over the three-year period.
- (ii) The municipality's Budget is subjected to a very rigorous independent assessment process to assess its cash-backing status before it is ultimately approved by Council.
- (iii) Strict daily cash management processes are embedded in the municipality's operations to manage and monitor all actual cash inflows and cash outflows in terms of the cash-flow forecast supporting the Budget. The cash management processes is complemented by monthly and quarterly reporting, highlighting the actual cash position, including the associated risks and remedial actions to be instituted.
- (iv) As the municipality has the power to levy fees, tariffs and charges, this will result in an ongoing inflow of revenue to support the ongoing delivery of municipal services. Certain key financial ratios, such as liquidity, cost coverage, debtors' collection rates and creditors' payment terms are closely monitored and the necessary corrective actions instituted.

Taking the aforementioned into account, management has prepared the Annual Financial Statements on the Going Concern Basis.
